

Connecting MetaMask Wallet to TDX

TDX allows you to securely connect your MetaMask wallet to participate in crowdfunding and other transactions. This guide provides a step-by-step approach to linking your MetaMask wallet to the TDX platform through the below methods:

- During KYC Verification
- After Login
- Via Profile Section

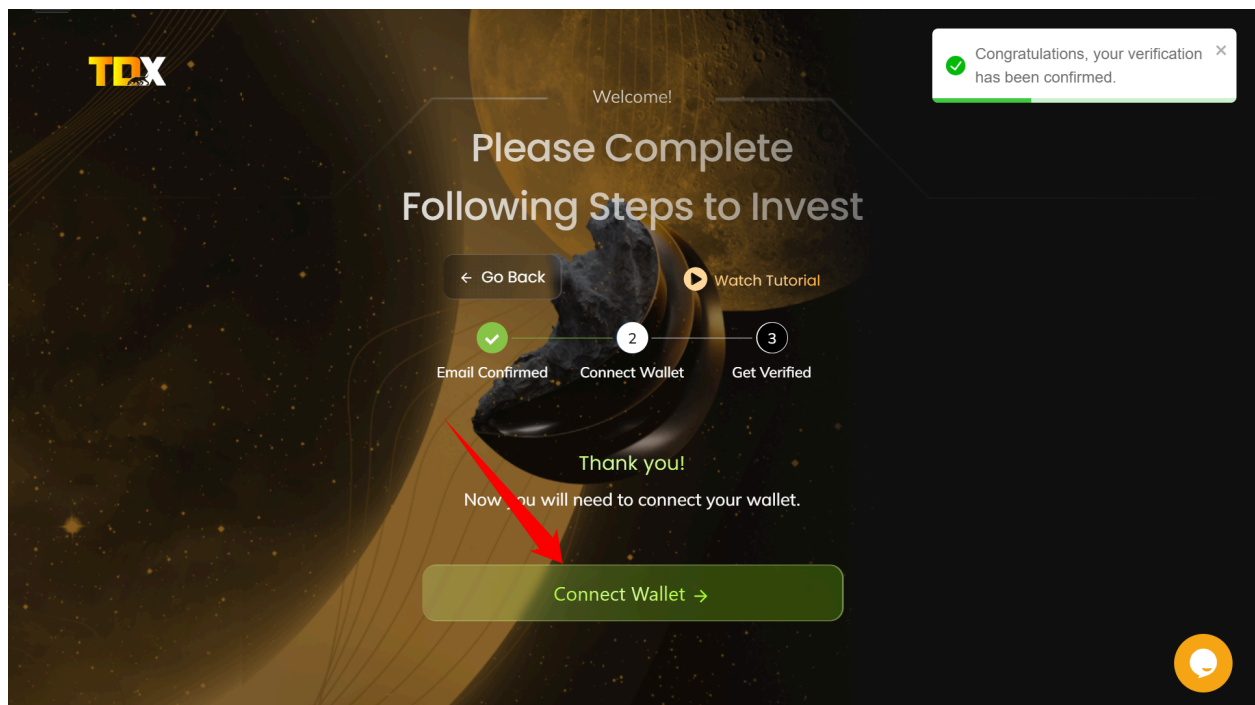

Lets get started 🚀

Note: Please ensure you have the MetaMask extension installed and logged in prior to beginning these steps.

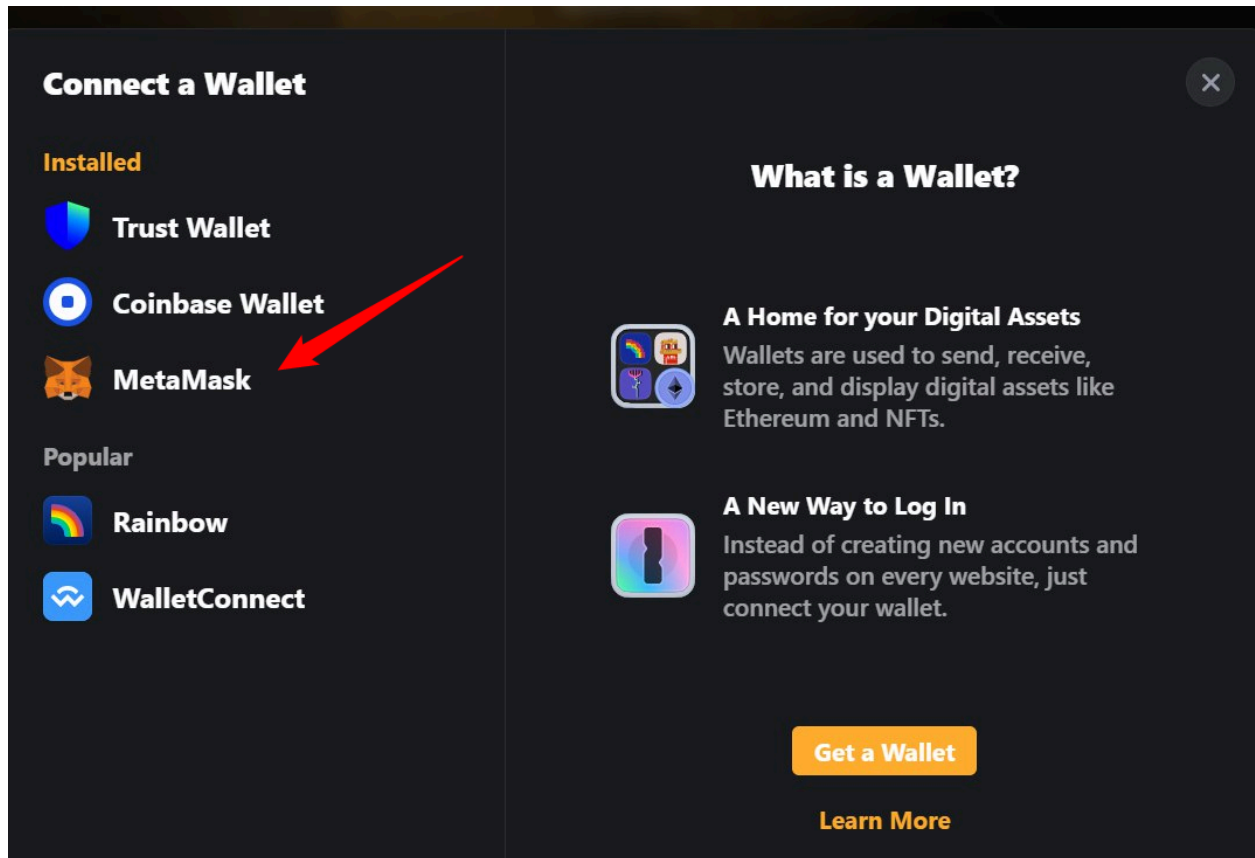

During KYC Verification

After you complete your email verification, the next step is to connect your wallet to your TDX account.

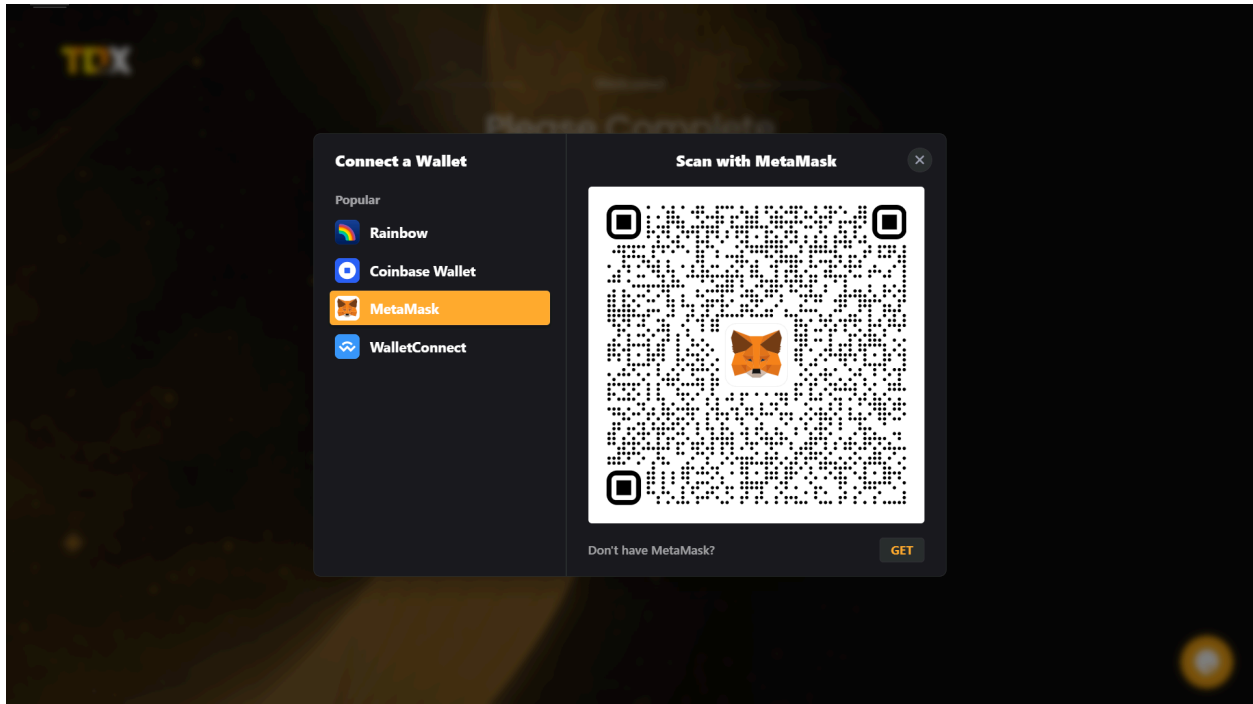

Step 1: Click on the **Connect Wallet** button to continue with the process.

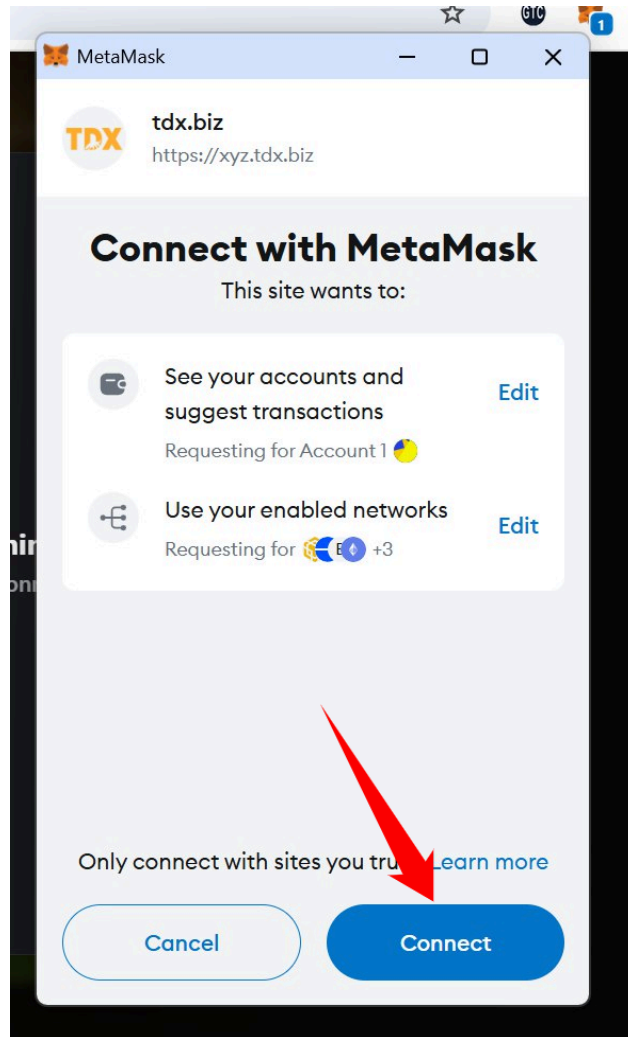

Step 2: A **pop-up box** will prompt you to choose the wallet you want to connect to your TDX account. Click on **MetaMask** to connect your MetaMask wallet.

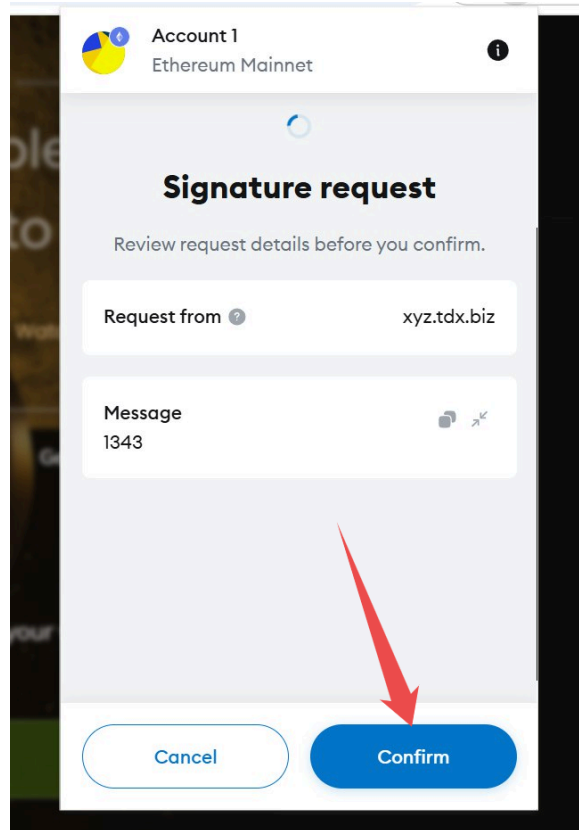

Step 3: A QR code will appear which you can scan with your camera.

Step 4: After scanning the QR, a window will appear asking for permission to connect. Click on the **Connect** button to complete the process.

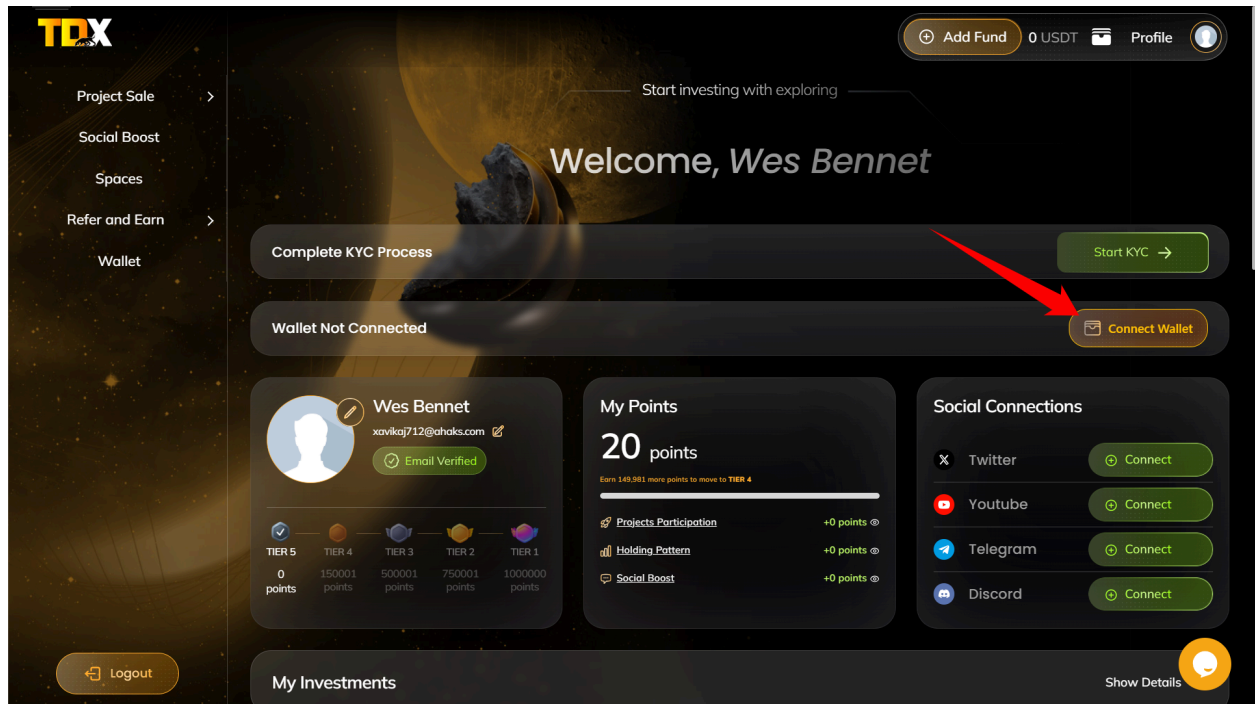

Step 5: Review and **confirm** the signature process.

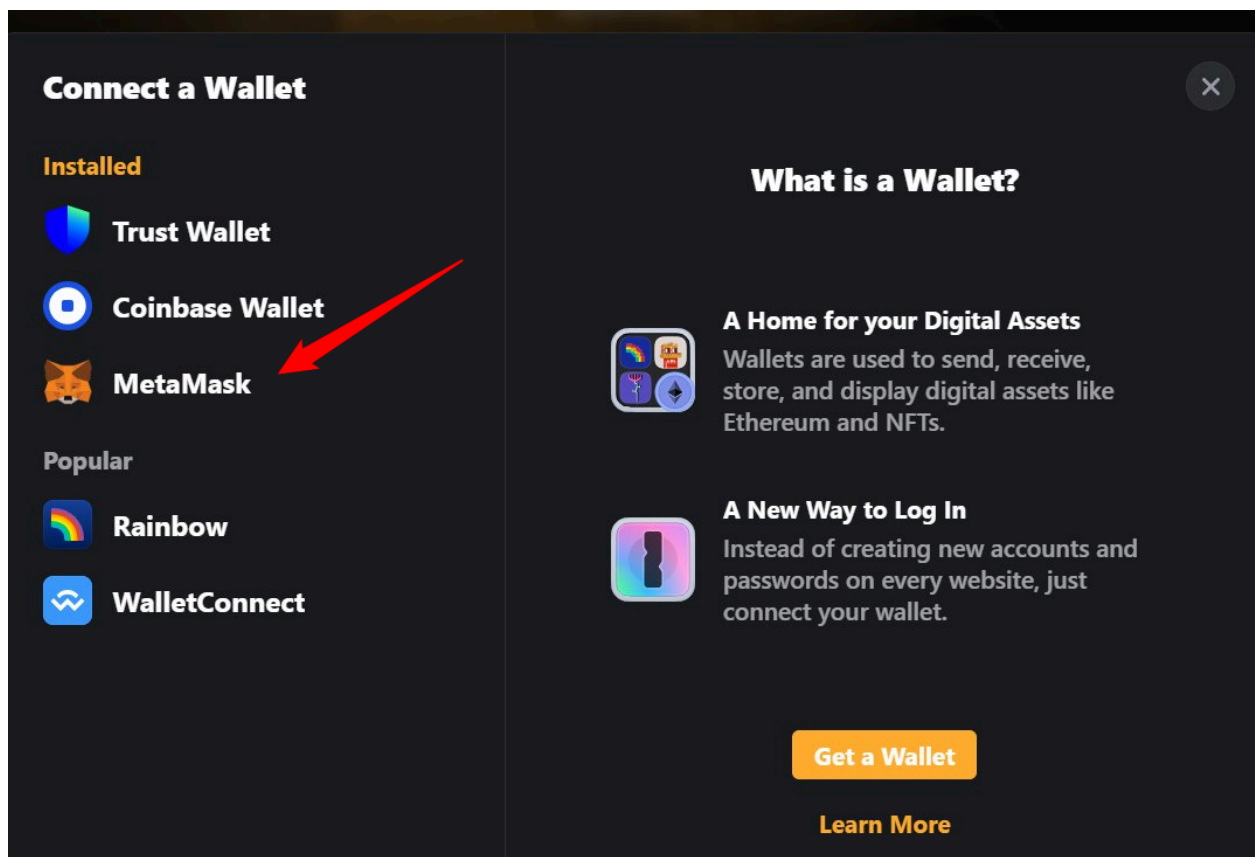

After Login

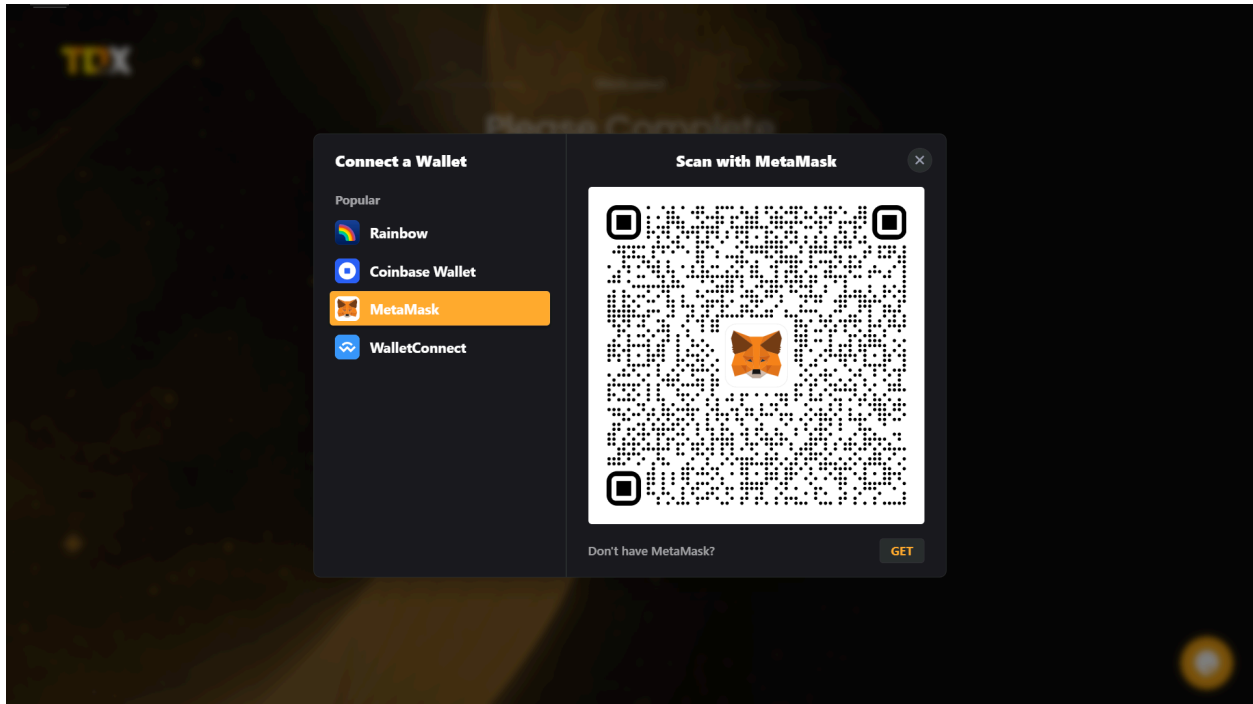

Step 1: After login, you will be directed to the homepage of TDX. Click on the **Connect Wallet** option.

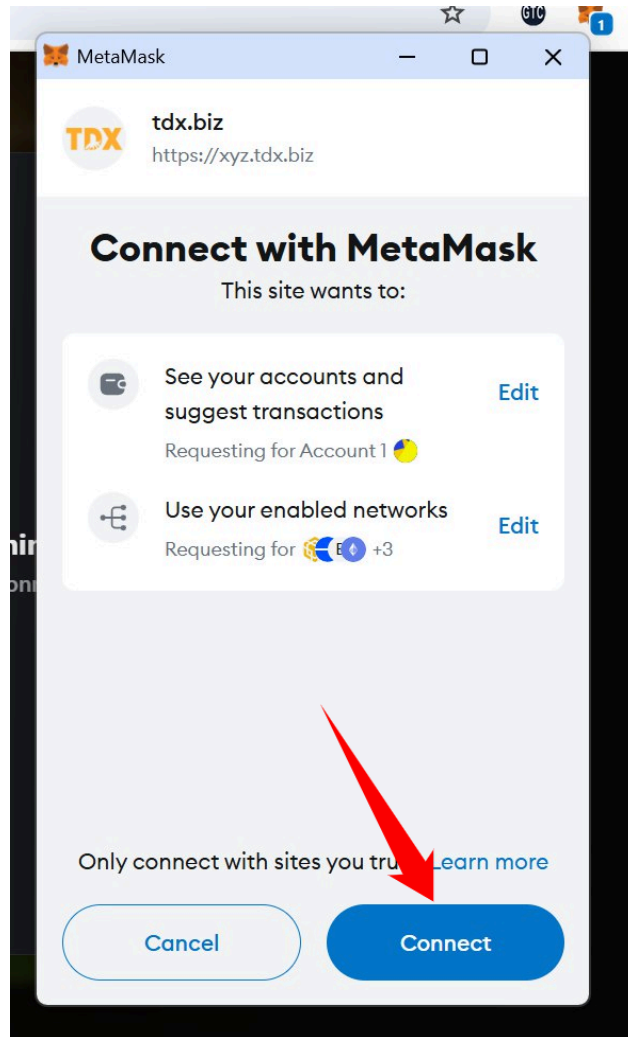

Step 2: A **pop-up box** will prompt you to choose the wallet you want to connect to your TDX account. Click on **MetaMask** to connect your MetaMask wallet.

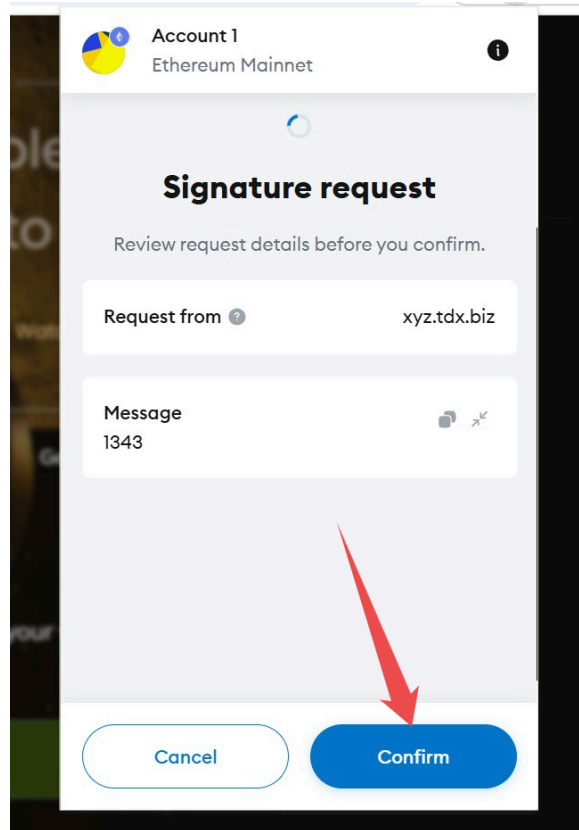

Step 3: A QR code will appear which you can scan with your camera.

Step 4: After scanning the QR, a window will appear asking for permission to connect. Click on the **Connect** button to complete the process.

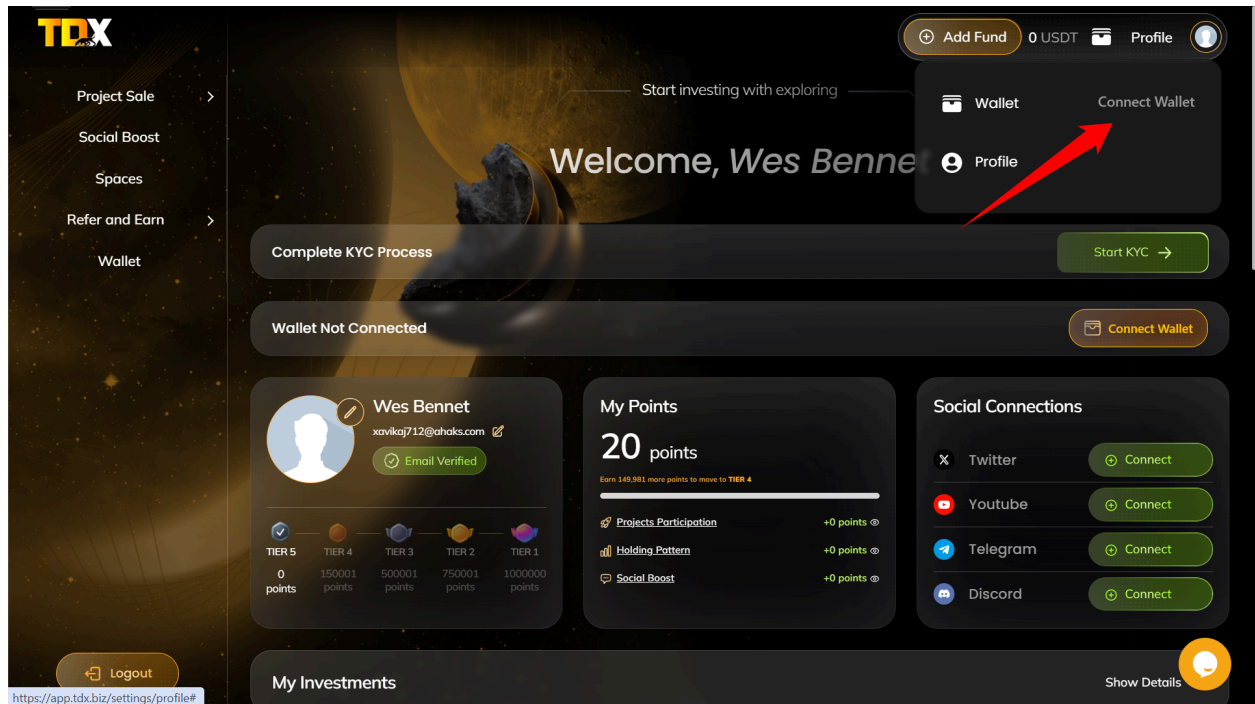

Step 5: Review and **confirm** the signature process.

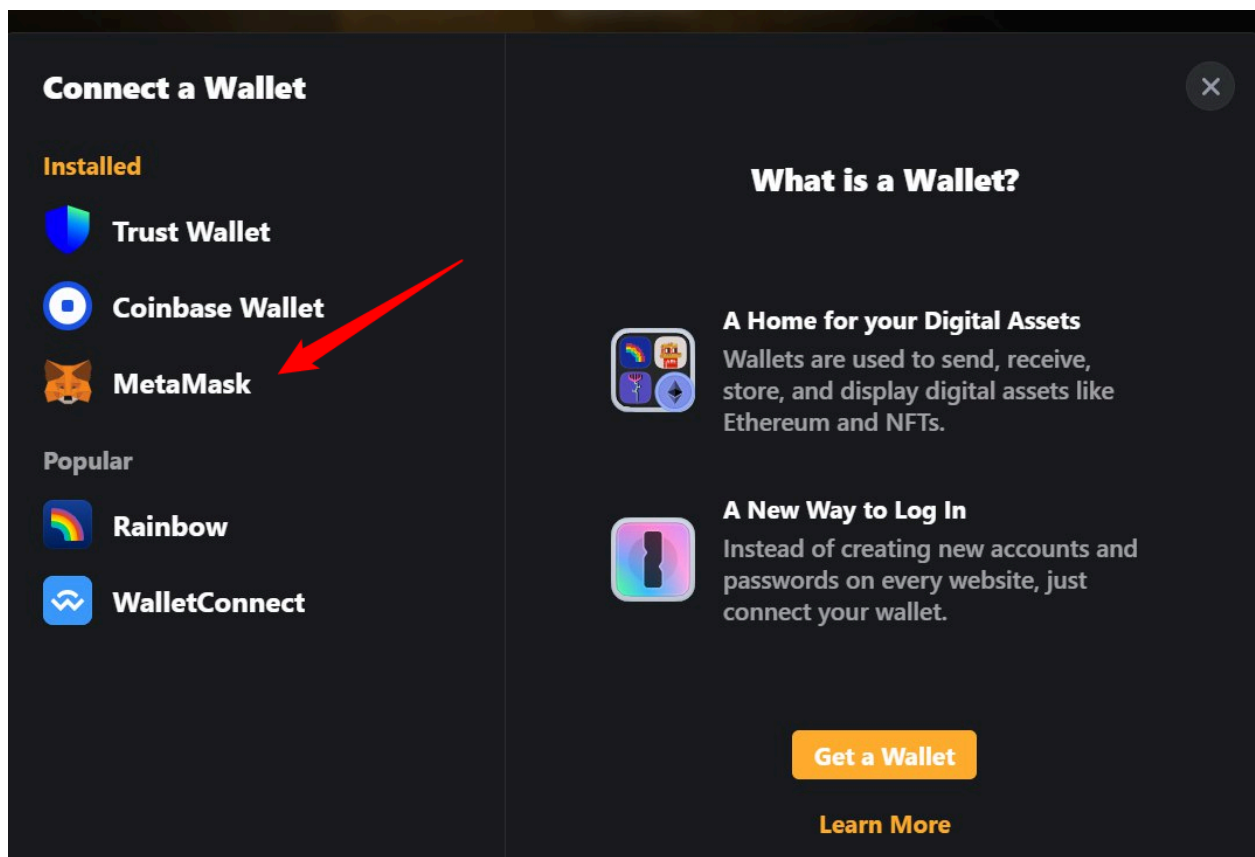

Via Profile Section

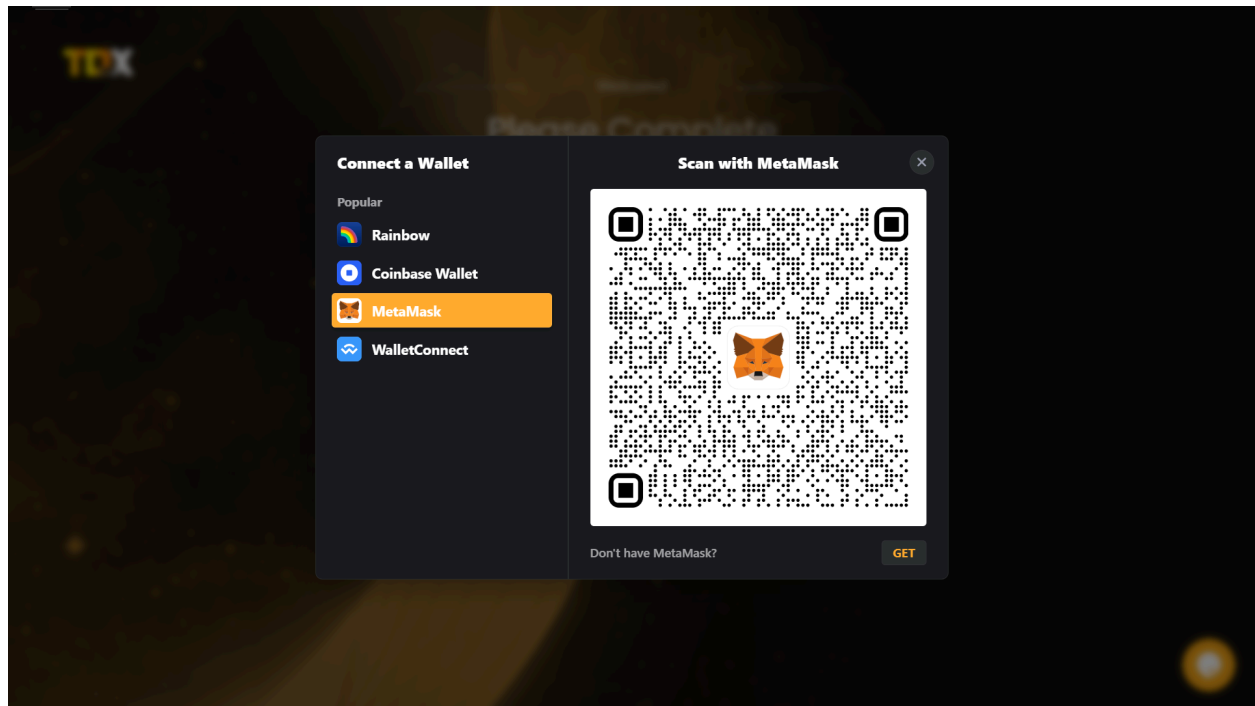

Step 1: Go to the Profile Section on the top-right corner of the home page and select **Connect Wallet** option.

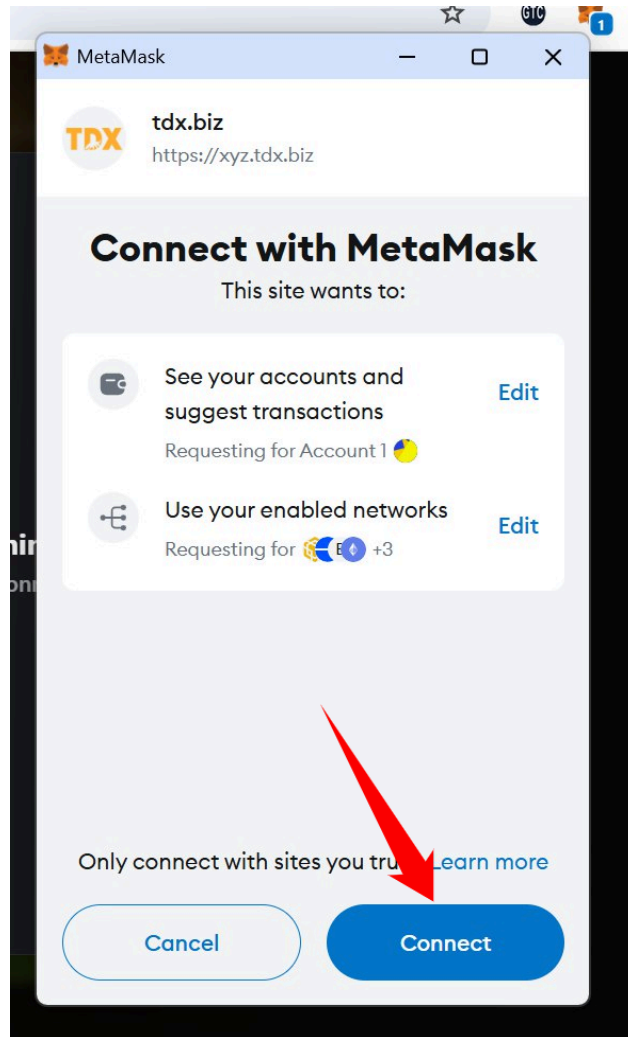

Step 2: A pop-up box will prompt you to choose the wallet you want to connect to your TDX account. Click on **MetaMask** to connect your MetaMask wallet.

Step 3: A QR code will appear which you can scan with your camera.

Step 4: After scanning the QR, a window will appear asking for permission to connect. Click on the **Connect** button to complete the process.

Step 5: Review and **confirm** the signature process.
