SUBJECT: Pain-Free Way To Get Clients In GMAPS 3 Pack

Hey there,

Want a fast way to earn \$500 consulting fees AND convert that to ongoing MONTHLY Fees?...only because your clients WANT the service to continue.

My buddy Mo Taqi, has discovered a practically "Push Button" method that lifts clients websites into GMAPS 3 Pack.

His team have been testing different ways to 'hack' Google's 3Pack and have found a very reliable technique.

They focus on ranking for GMAPS NEIGHBORHOODS since the opportunities are greater.

They've been selling this service and getting new customers like clockwork right from his office.

The Best Part: This not the "OLD SCHOOL" long, time-consuming approach. Once you get the hang of this, you can outsource the whole thing.

He's also giving you a Specialist Consultant WEbsite that helps you sell 3 Pack Ranking Services and...

*****His team INSTALLS The Site FOR YOU!**

SUBJECT: The GMAPS 'Loophole' For The 3 Pack

This is kind of a secret...

It's about this little unexpected loophole for Google Maps that lets local clients land in the 3Pack...It's actually very powerful stuff.

Mo Taqi and his team of SEO experts, figured out a technique and process to get clients in the 3Pack Easier and Faster than before.

It involves 'neighborhood ranking' which is how more and more searches are conducted. He's created a template that does the work and an emailing process that finds the clients. Really, nothing is left out.

And trust me, your clients will love this because they get a real shot at being in the 3pack and enjoying all the customer traffic that brings.

Taqi is seeing people already making some great results with this...I thought I'll share this with you while it's still new.
