*Guests			

Welcome and Introductions

ESU #3 Covid-19 Teacher Resource Center

WELCOME!

Thank you for joining us for today's ESU #3 Professional Learning Department Zoom!

Before we begin, please review the following meeting norms and Zoom best practices:

- Virtual meetings are for problem-solving and support (not venting).
- We are all navigating this new reality- understand each district/building has different expectations and we are all here to move learning forward.
- Pay attention to self and others.
- Presume positive intentions.
- Grounding/virtual check-in; sign-in, respond to something in chat, or with reaction tools to get everyone's "voice" in the room.
- Find a quiet space to participate.
- Participants can be engaged using the chat room, emojis, reaction tools.
- When speaking to group- turn video on (and make sure mute is off).
- Keep body movements to a minimum if video is on.

Thank you, we will begin shortly.

Supporting Students

Grounding Activity	Make introductions and share one success from this week.
--------------------	--

Questions for Discussion	• What are resources you have found for yourself, or are using that have been shared by others? • What are some resources for creating digital lessons for review and enrichment? Biology- Next week (Monday-Thursday) April 20th-23rd Bio: https://blog.pearsonschool.com/free-remote-learning-biology-webinars-for-students/ Chemistry - Monday-Wednesday April 27th-29th Chem: https://blog.pearsonschool.com/free-remote-learning-chemistry-webinars-for-students/ Physics - Monday, Wednesday May 4th/6th Physics: https://blog.pearsonschool.com/free-remote-learning-physics-webinars-for-students/ • Science Resources Doc • ESU 3 Science Resources Website
In the Chat (private if you want)	• What is one question you are facing that may not be able to be answered yet, but you want to be heard? • What are more things that ESU could provide you?

Supporting Students	
Grounding Activity	Make introductions and share one success from this week. ● Kenny ○ Biology-Pearson platform is set up for elearning, some difficulty with getting work turned in and some technical difficulties. ○ Applied Science-using Discovery Ed for "grab and go" lessons ● Mike Troy ○ Schoology, Nearpod, etc to use with students ○ Getting students to turn in work, 60% turning it in ○ Finding new ideas for how to engage students ● Leann Siekman ○ 60-70% doing great with turning in work ○ Hard to keep students engaged and not getting further behind, worried about kids getting further behind ● Val Randall ○ Weekly email to parents ○ Students not participating week to week ○ Tried a lab, but required too much from students ● Julie Sauer ○ 1st week of K-12 learning plan; engaged with new curriculum ■ 12th grade = 3rd week ○ Either live online or recording lessons on M or T; followed by "office hours" (follow-up instruction & guided practice) through the week.

	○ Engagement is good right now
Questions for Discussion	● What are resources you have found for yourself, or are using that have been shared by others? ● What are some resources for creating digital lessons for review and enrichment? ○ Morrill Hall schedule for virtual field trips ■ Tuesdays at 10 AM, 12 PM, and 2PM ● How are others tracking learning/checking understanding? ● Earth Day - April 22, 2020 ○ Earth Day at Home Resources ○ Earth Week Summit ○ NOVA Education Virtual Field Trips for Earth Day & Environmental Education Month (Wednesdays through the month of April) ● Science Resources Doc ● ESU 3 Science Resources Website
In the Chat (private if you want)	● What is one question you are facing that may not be able to be answered yet, but you want to be heard? ● What are more things that ESU could provide you?

Supporting Students	
Grounding Activity	Write a word or draw a picture to sum up your week or how you are feeling right now
Questions for Discussion	Make introductions and share one success from this week. DC West - Limited to 20 minute sessions max (assignments that fit within that time frame) -Not zooming with classes (M.S. SPED are doing some Zoom with their students) Millard - Looking a little different everywhere; Phase 2 of curriculum cycle (K-12): proposing the purchase of new materials in the beginning of May. Have had some practice with elearning with snow days this year, but it's different with it being everyday. Sharing what's working, teachers are sharing resources within their PLCs. Everyone adjusts to meet the needs of their students. Arlington - M.S. using Amplify, working late nights to get students familiar with the platform. M.S. & H.S. using Google Classroom. TJ using Zoom with students that are able to join. What does success look like right now? What are resources you have found for yourself, or are using that have been shared by others? DC West - using their new books from home; Playpauseit (there is a cost) Where to start if the expectation is digital learning? What are some resources for creating digital lessons for review and enrichment? How are others tracking learning/checking understanding? DC West - This tough - there are different expectations coming from home. Discussion of if a grade was taken, SPED services had to have been provided. Arlington - Keeping it pretty basic; satisfactory/unsatisfactory work - accepting all late work. Up in the air a little with late work Millard - Millard Public Schools Grading
In the Chat (private if you want)	What is one question you are facing that may not be able to be answered yet, but you want to be heard? What are more things that ESU could provide you? - Virtual Labs - Field Trip Opportunities - How to teach all populations/student groups?

Starting 4/6/2020 - PLD Weekly Zooms: zoom.us/my/esu3support

Time	Monday	Tuesday	Wednesday	Thursday	Friday
9:00		Secondary Math <i>Hosted by Debbie and Aaron</i>		Instructional Coaches <i>Hosted by Debbie, Megan, and Christine</i>	
10:00	PE <i>Hosted by Greg and Aaron</i>	Secondary Science <i>Hosted by Sara and Derek</i>	Principals <i>Hosted by Megan and Aaron</i>	Music <i>Hosted by Derek</i>	
1:00				Secondary ELA <i>Hosted by Laurie and Kate</i>	
2:00	Library <i>An open discussion room for all Library/Media Teachers Hosted by Robbie Jensen</i>	Instructional Technology Integration <i>4/7 - Zoom Privacy & Security Settings 4/14 - Google Classroom</i>	Elementary <i>All grades welcome at this time! Hosted by Megan and PLD</i>	HAL - https://zoom.us/my/alarson <i>Hosted by Adam</i>
