

FluffySiera's Art Portfolio and prices.

About me:

I am Siera, a 19 years old college student from Germany.
I began drawing as soon as I could hold a pencil and never stopped since.
My first drawings were different ponies from the MLP show and my own characters. Three years ago, I started drawing furry artwork and since then, I barely draw anything else.

TOS

I draw MLP, Furry anthro and Furry feral! All prices
are the same for MLP, Anthro and Feral.

Commission prices and examples

Headshots

Headshots are great to show face markings and expressions that fit the character!

Halfbodies

Halfbodies work very well for posing the character a little closer to the camera. These can have complex poses that wouldn't work for headshots or fullbodies.
