Better with friends

Important : Since I stream most games it takes me longer time to beat them

	Name	Review	Status	Explanation & time my time beat a game
	Mario Kart 8 Deluxe	 	Ongoing	Always fun to play with friends. Absolute Classic
	Fortnite		Ongoing	Fun to play with friends that don't sweat and are in it for a good time. A lot of modes to choose from and player made maps
	Astrobot	 	Finished	Overall cute and adorable adventure game with tons of nostalgia if you're a boomer
	Black Myth: Wukong		Ongoing	~130 to beat The game itself can appear unpolished and difficult however great story & animations. Would not consider a soullike due to bosses not being able to be killed without items that are locked behind sidequests.

	League of Legends		Ongoing	Personal addiction - Fun to play ARAM & Solo que as well as with friends
	Teamfight tactics		Ongoing	Fun auto-chess with cute chibis and boards
	World of Warcraft		Break	On and off periods - always fun
	Squirrel with a gun		Ongoing	Super random high speed ADHD Action game with guns - big fun
	House Flipper 1 & 2		Break	Houseflipper 1 has more content overall however HF 2 has better graphics and will have more future updates Great game to revisit every now and then
	Phasmophobia		Ongoing	Great horror game to play with friends every now and then - devs working on updates

	Beat Saber		Ongoing	Great for when you wanna workout while you stream - exhausting but super fun with anime songs
	Baldur's Gate 3		Ongoing	Great action and decision making game you can both solo and with friends
	Darkest Dungeon		Ongoing	Great turn-based roguelike dungeon crawler lovecraft game - you win some , you lose a lot. Great game to revisit/replay Simple mechanics, cute mods (Be aware mod community having a lot of nudity mods)
	Pokémon Legends Arceus		Dropped	Boring story - slow tempo , Scarlet & Violet was better.
	Pokémon Legends ZA		October 16th	
	Pokémon Snap	 	Break	Adventure , Simulation , Photography Such a cute and fun game , you go and literally take pictures of Pokémons - Like a safari! It can be stressful getting a hang of the controllers and the game, and the game itself has a slow progression as well as you have to repeat a lot of stages to be able to progress.

	Elden Ring		Finished	A beautiful open world souls game with a lot of things to discover and explore at your own pace. #RanniRanAway
	Elden Ring DLC Shadow of the Erdtree		Break	Not as enjoyable as the base game - disagreeing a lot with the direction of the game.
	Content Warning		Ongoing	Super fun game to play with friends pretending to be Youtubers and getting eaten by ghosts. <i>Huehue fart noises</i>
	Another Crab's Treasure		Ongoing	Unique take on soulslike game together with aquatic elements - colourful and challenging at the same time Recommending to newbies
	Bloodborne		Ongoing	
	Enshrouded		Break	Break due to waiting for full release - great action adventure survival game, D&D vibes. Best played with friends because of difficulty and variety in playstyles
	Cyberpunk 2077		Ongoing	Immersive story with a lot of action and decision making. Will add more once finished.

	Chained Together		Ongoing	Chaotic game that causes a lot of blame and trust issues - what do you mean this is a teambuilding game?
	Tiny Glade		Ongoing	10/10 atmospheric game , relaxing sandbox city builder game Even the sheep gets floaties
	Euro Truck 2		Ongoing	Weirdly relaxing game especially when you are playing balkan hits remixes on youtube. Life felt fulfilling for a moment and even better with the gear IRL.
	Tomb Raider Definitive Edition		Finished	Played the game to revisit childhood hype , however it's a decent game for the experience. You don't miss out on anything if you don't play it.
	Rise of the Tomb Raider		Dropped	No value story wise - did not capture my attention and since I already played Def. Edition it feels like I was done with the franchise.
	Afterparty		Dropped	Poor mechanics , boring conversation/story. Did however have moments of funny dark humour but not enough to keep going
	PALWORLD		Dropped	Played during early access , severe instability with servers causing players to lose all progress / not being able to enter their character that's in a server aka. Your house and all your pals are belonging to "another player"

	Princess Peach Showtime!		Dropped	Overhyped Poor mechanics Poor Graphics Poor Controllers Not worth \$60
	Viewfinder		Dropped	Interesting concept of photographing things to make platforms however after doing it for a while I lost interest and the story wasn't captivating enough for me to stick around.
	Goat Simulator 3		Dropped	It's a weird game man , chaotic and ridiculous however there were no clear objectives except for achievement hunting.
	Esport Godfather		Finished	Football Managers younger brother - Super fun for someone that likes MOBA and likes strategy/manager games. - Minus points for AI generated art. - Minus for repetitiveness when reaching higher leagues.
	Parasocial		Finished	Graphics are typical japanese horror games however it's a good game that lifts up the horrifying topic that people deal with in reality. Parasocial relationships do not occur only online , but in real life too.
	Don't Pee		Finished	One of the most random games I've ever played - comedy horror and true to its name. It's an experience.

	Inscription		Finished	~ 16 h to beat Highly recommending the experience of the game. Super fun deck building game. However I was hoping for more horror. I disliked the game style changes that happened after ACT 1 but a great experience nonetheless
	Frostpunk		Finished	Survival city-building game with controversial reality checks of survival. Hard decision for the greater good which could be frowned upon by many.
	Frostpunk 2		Dropped	Frostpunk 1 was about managing one single city and leading it to survival, however FP 2 was the complete opposite. It felt cluttered and overwhelmed with the UI and all the management of the smaller cities that it brought more stress than pleasure.
	Killer frequency		Finished	~ 7 h to beat Absolutely amazing horror game with decision based mechanics. Great immersive story , strongly recommend the experience. Minus points for not being able to play VR version through steam so if you want to play VR you have to get it through Meta Store
	TCG Card Shop		Finished	Really fun managing game. Gets repetitive after a while, slow levelling process. To have a good experience and add to quality of life, players were forced to turn to mods to make the game more fun. Mods like Card skins , faster opening packs etc. Mods made the game fun which should not be the case.
	Until Dawn		Finished	~ 10 h to beat A classic horror game all horror story enthusiasts should experience. Does a great job on making you forget that it's a game and you won't know what the consequences of your actions are until it's too late.

	Firewatch		Finished	~ 4h to beat A short decision making game with some small horror aspects and puzzles. Mediocre story but not a bad overall experience
	Dredge		Finished	Fishing adventure horror RPG with great story. Lovecraftesque theme that should definitely be experienced.
	Ghost of Tsushima		Finished	
	Ghost of Tsushima DLC : Iki Island		Ongoing	
	Ghost of Yotei		October 2	
	Cuphead + DLC		Finished	Highly recommending this game if you are into platforming games as well as cartoon styled games. Chalice DLC did make the base game easier in my opinion because of her mechanics, however I used her as my main character because of how fun she was. Prepare for some hair pulling.
	It Takes Two		Finished	Great game to play with a friend. Really well made when it comes to scenery and mechanics. Overall 10/10 game

	Mouthwashing		Finished	A purely what the fridge game. Reminds you of old Japanese horror games. It's definitely a unique game that will leave you puzzled for the rest of your life. It has a lot of gore in it so be aware.
	Balatro		Finished	Deck-building roguelite I had really fun with Balatro however after 'Winning' enough time I felt pretty finished with the game. Super addicting so be aware!
	CIV 6		Finished	Great game if you're into strategy and turn based games. I enjoyed learning so much about world events while at the same time playing a game to take over the world. Great replayability and definitely a game that can be played both solo or a game session with friends.
	CIV 7		TBP	(waiting for more content)
	Monster Hunter Wilds		Dropped	Adventure, Hack and slash I had great expectations regarding MHW especially on the multiplayer front. However I was quickly disappointed because apparently friends can only join if you're doing a "monster" but other than that they get kicked out from the instance and I really wanted to play this with friends like FFXIV. Also they still have major issues with texture and graphics.
	Atomfall		TBP	

	Inzoi		dropped	
	2XKO		TBP	
	Ruined King		Dropped	Turned Based RPG Dropped it after 2 hours , it's so slow and tedious that I couldn't pay attention to it at all. Big sad since I was excited to meet all the characters and their story.
	Song of Nunu		Finished	Adventure Puzzle ~7 hours A heartwarming game about the league of legends characters Nunu and Willump. Really well made if you're interested in getting to know more about their story
	FABLE		TBP	
	Demonschool		November 19	
	The Sinking City 2		TBP	

	Slay the spire II		TBP	
	Alters		TBP	
	Subnautica		Dropped	In my experience it was a difficult game to proceed in due to lack of guidance. It was easy to get lost and confused which ultimately made me drop the game. I don't like to be forced to look up guides while playing a game.
	Subnautica 2		TBP	
	Expedition 33	 	Finished	Turn Based RPG Adventure I had a blast playing Expedition 33. The mechanics were nice but the sound track slapped. I do feel that the game was made with Mechanic first in mind and Story second since the story has a lot of holes into it. This game has Esque winning so easy win.
	Split Fiction	  	Finished	Platform, Co-op , Adventure This is a must-play game. It was so much fun and totally worth the money! This game is a masterpiece that has a fun twist on Sci-Fi & Fantasy together with a bunch of different mechanics.

	Mafia The Old Country		TBP	
	Undertale		TBP	
	Marvel Rivals		Ongoing	If you like Overwatch this is a great alternative + devs are listening to the fans
	Chops Rocket Shop		TBP	
	Metro 2033 Series		TBP	
	Little Kitty Big City		dropped	~3 hours to beat
	Lockdown		Ongoing	Pretty Ok Among us copy. I liked the graphics however I disliked the tasks and how long it took to learn them. Certain tasks were too complicated but overall it's a fun game to play with more people.

	Core Keeper		Break	Survival base building RPG
	Dragon Age		TBP	
	Celeste		TBP	
	Hollow Knight		Finished	Really fun platforming action game but it can get very confusing if you don't read a guide or have someone experienced with you. Imo should be experienced at least once
	Animal Well		Finished	Pretty OK game - lacking lore however it's a typical platforming puzzle game that you have to use your brain. I wish the game had lore because of its interesting characters; however it's definitely a game that requires the help of friends/guides.
	Alone in the Dark		TBP	
	A Short Hike		TBP	

	V Rising		Finished	One of my favorite survival base building RPGs. So many unique mechanics and a different playstyle from other games. Once you get to the end game , there is not much to do except for grinding which made me drop the game before I beat the final boss Still recommend it
	Sekiro		ongoing	
	Hogwarts Legacy		TBP	
	Slime Rancher		TBP	
	Grounded		Finished / Break	~ 80 h to beat Survival , base building , multiplayer A strong recommendation to play with friends. Great combat , great characters. Overall a 10/10
	Nobody saves the World		Ongoing offline	Ageless game that is fun to play with friends. Action RPG , Shooter game but more like a cartoonish diablo II . Super fun !

	Bokura		Finished Offline	Cooperative two-player puzzle game really interesting world setting. The graphics can be misleading so be aware if you are queasy. Japanese platforming story game.
	Bokura Planet		TBP	Not sure if need to play Bokura first - shall check out
	Horizon		TBP	
	Trover Saves the Universe (VR)		TBP	
	Silent Hill 2		TBP	
	We Happy Few		Dropped	Interesting concept however horrible execution. The game felt lacking in so many aspects and overall was confusing in what the games identity should be. I don't recommend this game.
	No Man's Sky		Break	Open world survival crafting game. Purely a vibe and an experience into a timeless void. Super relaxing - play at your own pace type of game. Strongly recommend the experience

	Death's Door		TBP	
	Beacon Pines		Finished	Decision making Adventure story game. Phenomenal graphics that really immerses the player as if they are reading a story book. Highly recommend the experience. Also the OST is bangers
	This Bed We Made		Finished	~ 6h to beat Mystery game and you play as a maid that uncovers the truth about the guests. Personally I found it alright , the plot was cliché hence didn't really add anything new to the experience.
	We were here (Series)		Finished	~ 27 h to beat all Two player puzzle game. Cooperate to get out together or sacrifice the other. Really fun game to spend with a friend , expect a lot of panic and laughter. Really great experience
	Sons of the forest		Break	Survival base building horror simulator with mystery. Personally I found it very intriguing how realistic the setting is. Mechanics aren't too bad but it takes some time to get used to them as well as figuring out how to proceed.
	Paranormasight: The seven mysterious of Honjo		Finished	~ 13 h to beat Horror Visual Novel with great story, great setting and overall gives the player a great experience. Strongly recommend this game if you like horror or the supernatural, especially Japanese styled lore.

	Pummel Party	 	Replayable	Great alternative for Mario Party with more guns and violence. Not much to say except a good pocket game to play with friends from time to time.
	Hades	 	Finished	Roguelike fighting ARPG game. Enjoyed the game quite a bit due to its mechanics and graphics. It was fun to unlock items but the replayability got boring in the end. I still recommend the game
	Hades II		Dropped	Although in early access - the game itself feels like a worse Hades 1. Personally, this game could've been a DLC.
	A Way Out	 	Finished	Two player co-op game with great gameplay. A lot of teamwork which was super fun. Strongly recommend it for those who are looking to spend time with a friend. Works both Online and Local.
	The Tenants		Finished	Simulation & management games. If you like houseflipper , The Sims or any other Tycoon game - you will like this game. Great game to get hyper fixated on and just have a good time.
	Little Misfortune		Finished	This game is an experience to have. Point & click game however it will leave you in a confused state due to the story being both funny and well.. Yeah

	Cult of the Lamb	 	Finished / break	Roguelike action games strongly recommend the experience. Great content as well as graphics - they brought at the time something unique that became timeless. + 2 player local co-op is available
	Portal 2		Finished	10/10 Game still holds up after many years - very satisfying and funny!
	Kaichu		Finish	~ 6 h playtime A kaiju dating simulator with cute monsters. A bit stiff characters and options but still a cute game to play on stream if you don't want 18+ visual novels.
	Satisfactory		Break	
	Stray	 	Finished	~ 10 h to beat Strongly recommend this game and the experience it has to offer. Great adventure and puzzles - overall wholesome. Also who doesn't like cats?
	The Stanley Parable Ultra Deluxe	 	Finished	~ 4.5 h to beat 10/10 game with unexpected comedy from such a mundane profession. Strongly recommend the experience - you won't regret it Just gotta think outside the box and cause chaos.

	Little Nightmares II		Dropped	The game started strong with the horror and puzzles aspects but halfway through, the game became a boring platform-esque game. It lost the horror touch completely and the controllers are absolutely garbage during certain "fights" that soured the experience
	Little Witch in the Woods		Dropped	Super cute pixel art adventure game however as someone who struggles to read they had A LOT of text and I got tired and zoned out half of the time. I do however believe that this game caters to some
	Unpacking		Finished	Accurate unpacking simulator , super cute and relaxing game with a small story that can be finished in ~ 4 hours . Perfect game to just step away from reality. Since it's a puzzle game it has a lot of easter eggs and each to their own.
	XCOM2	 	Finished multiple times	Tactical RPG , Adventure , Strategy. One of the few games with high replayability. It's a great introduction for someone who wants to try strategy games and understand the meaning of consequences.
	Once Human		Finished	Survival MMO It was really fun to play , they had a lot to offer when you played with friends - Going on adventure together and pretty decent mechanics however once you got to the end content you had nothing to do but grind which was pretty boring and I lost interest pretty quickly. Lot's of cute gacha skins tho
	Life is Strange		Dropped	The mechanics are not well made. There are bugs that can get you stuck for a very long time but also the story itself is so stale and almost cliché. It made me get angry at the character more than necessary.

	Transistor		TBP	
	Bastion		TBP	
	Lethal Company		Break	Was a great game when it was released, however it was overshadowed when Content Warning came out due to people having more to do rather than just going in and fetching stuff. Overall a great game to play with friends especially if you like horror.
	Crypt of the NecroDancer		TBP	
	Shadow of the Colossus		TBP	
	Oxenfree		Finished	~4.5 h to beat Decision making Indie game that is very unique to the market. Overall great story, immersive atmosphere and I strongly recommend the experience of the game. Everything is voiced hence no need to read except for the decisions

	Oxenfree II Lost Signals		Finished	~6 h to beat An unnecessary second game. You will be greatly disappointed by the quality of the second game and a clear sign that they are riding the success of the first one. I don't recommend this game.
	Needy girl overdose		TBP	
	Miside		Finished	RPG , Simulation , horror , Indie ~ 4h to beat I feel like this game was a good "practice" game for the studio because you could see that they used a bunch of mechanics, however I do feel like a lot of the mechanics in the game could've been their own standalone games. The game itself has good progress however a downside was that they were talking so fast almost too fast and some of the mechanics felt meh. Overall it's a good short Yandere vibe horror game!
	Watch dogs		TBP	
	Project Zomboid		TBP
