ABSTRACT

Abstract No more of 300 words must give for reflect content papers. A concise and factual abstract required. Abstract must state in a manner short context problem (background back), purpose/objective research, method main, results and conclusions main (contribution). Abstract served frequently in a manner separated from article, so must can stand alone. For reason this, Reference/quote must avoid. Besides it, short for which is not standard, or No general must avoid, however If important, abbreviation the must defined at the moment first mentioned in abstract.

This is an open access article under the CC BY-SA license

1. INTRODUCTION

This section contains background behind research, purpose research, and written theory in form paragraph flowing (no made in form numbering)**.** Type Letter **Cambria,** size 11 with line spacing on A4 paper. Paper limit top 3 cm, bottom 3 cm, left 3 cm and right 2 cm. Articles written as efficient Possible in accordance with need, with long article around 6-10 pages.

The easiest way for writing your article to match in writing format Journal is with copy paste this template. Writing term foreign must written in letter italics. Table be equipped with source year research data processing. All form table like example. Writing table placed on top table with the left average. Example:

Table 1. List of Acquisition of Student Values

Mark	Letter	Amount Student
86-100	A	7
81-85	B	4
<85	C	22

Source: Data processed, 2023

2. METHOD

Give enough detailed method for possible work the reproduced. The method has published must showed with reference: only relevant modifications should be explained.

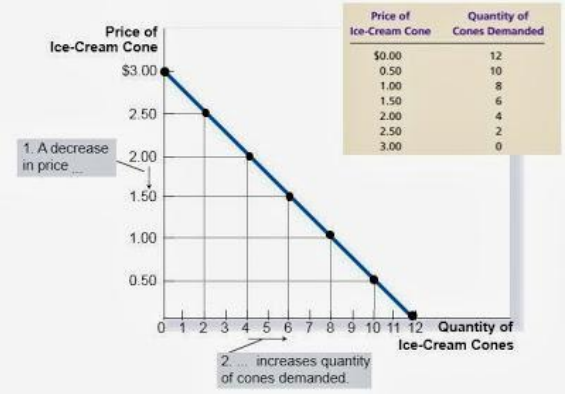

Figure 1. Use letter capital on each beginning of the adverb picture

Explanation short about meaning and significance from table - Method experimental can supported with a flowchart, which shows with clear process and complete with legend, scale / dimensional If required (Figure 1).

2.1 Data used

If a formula is used, it must listed in the manuscript as Equation 1 and Equation 2, such as:

$$E = MC^2 \quad (1)$$

2.2 Writing sub chapter 2

If there are cold sub chapters added, written in the format as exemplified, ie Chapter. sub- chapter number as well as subchapter name _

3. RESULTS AND DISCUSSION

Results must clear and concise. Show only the most significant findings or main from research. Discussion must explore significance from results research. Adequate discussion _ or comparison results moment This with article published similar _ previously must provide for show position study moment this (if available). Following is example writing the picture you want loaded in manuscript.

4. CONCLUSIONS AND RECOMMENDATIONS

Main conclusion from study can served in short Conclusion section, which can be stand alone. This section is not repeating Results, but rather give significant findings and contributions from research.

REFERENCE

Writing bibliography using Format APA 7th Edition by mentioning the author's last name accompanied by the year of publication. References written in the previous bibliography must have been referred to in the manuscript, written in order. It is recommended to use tools such as *Mendeley*, *Zotero* and other reference management tools.

Writing citations using the author's last name accompanied by the year of publication (Ahmad et al., 2019). Writing bibliography can directly several bibliography at once (Aljawarneh et al., 2018; Guo et al., 2018; Kurniawan et al., 2019; Shams & Rizaner, 2018). Bibliography writing format using Format APA 7th Edition (Aljawarneh et al., 2018; Kurniawan et al., 2019). Format APA 7th Edition can be seen in
