Surat, Gujarat, India

Career Summary

Passionate and detail-oriented Frontend Developer with over 3.5 years of hands-on experience in designing and developing responsive, user-centric web applications. Proven expertise in JavaScript, React.js, Next.js, and TypeScript, with strong knowledge of modern frontend practices. Skilled in managing development teams, collaborating cross-functionally, and building scalable interfaces. Adept at delivering high-quality code and enhancing performance in fast-paced environments.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL (basic)

Frameworks/Libraries: React.js, Next.js (App Router & Pages Router), Redux, Zustand, Tailwind CSS, Framer Motion

Tools: Git, GitHub, VS Code, Vercel, Trello, Cursor AI, ChatGPT, [Lyzo.ai](#)

APIs: RESTful APIs, GraphQL (beginner), Axios, Postman

Other: Responsive Design, Component-Based Architecture, Figma-to-React Integration, SEO Optimization, Performance Tuning

Professional Experience

Senior Frontend Developer

Samvara Technologies — Oct 2021 to Aug 2025

- Led frontend development across multiple high-profile client projects using React.js and Next.js
- Built and optimized reusable components and pages with dynamic routing and SSR for SEO
- Integrated REST APIs using Axios and improved app performance by 30% using lazy loading and code splitting
- Mentored junior developers, reviewed code, and improved delivery timelines

- Collaborated with designers (Figma) and backend teams to deliver user-friendly UIs

Projects

1. **Gymble** – gymble.us

A modern fitness application that allows users to discover, book, and manage gym sessions and activities.

- Built dynamic, SEO-optimized pages using **Next.js** and **React.js**
- Integrated REST APIs and implemented lazy loading to boost performance
- Designed reusable UI components with **Tailwind CSS** for a responsive experience
- Focused on fast load times and optimized image handling for mobile users

2. **Oneboard** – oneboard.app

A collaborative workspace platform for managing projects, tasks, and team communication.

- Developed a fully responsive interface with **Next.js**, implementing role-based access controls
- Created custom reusable components with **React.js** and **Tailwind CSS**
- Handled routing and state management with **Redux**
- Worked closely with design and backend teams for seamless integration

3. **IndiaPort**

A shipping and logistics management portal for streamlining port operations and cargo tracking.

- Contributed to building the admin panel using **React.js**
- Managed dynamic routing and middleware logic for access control
- Focused on modular code structure and route-level protections

4. **Vimal Power**

A real-time energy monitoring system for tracking power consumption and efficiency.

- Developed and maintained the admin panel using React.js and Next.js
- Implemented middleware and authentication-based routing logic
- Collaborated with the team to manage access controls and secure admin workflows

Education

Diploma in Computer Engineering (June 2022 - July - 2025)
