Exploring Cannabis Product Selection

Flower and Pre-Rolls

The official website includes cannabis flower and pre-roll categories. Compare flower packages by weight and labeled cannabinoid content. With pre-rolls, check both the number of units and total package weight, since similar-looking packages can contain different quantities.

Edibles, Vapes, and Concentrates

Bud Bar's catalogue also lists cannabis edibles, vape products, concentrates, oils, and capsules. Browse the cannabis product catalogue to understand the formats, then confirm what is available at the 14 ST NW location. For products requiring equipment, clarify which compatible components are included.

THC and CBD Products and Accessories

Review the actual THC and CBD amounts rather than relying on a product name. Health Canada's cannabis label guide explains how to interpret packaging information. When comparing accessories, consider compatibility, maintenance, and any additional components needed.
