Passenger Updates

48-49 They found another sibling, so we have a +1 for these pups heading to Rocky's in Illinois.

43-44 were adopted locally. Yay!

Since 43-44 were adopted, I have added a 15 lb chocolate lab puppy (#63) St. Louis to Bolingbrook. I have simply substituted where appropriate.

#1 Joaquin will not be on transport.

45-47 were adopted locally! Yay again! Keep those chi monsters! 🐾

51-53 and one of the 59-62 pups didn't pass their health certificate exam, so they will not be traveling. Instead, I am adding an 18lb momma and her 4 4-week old pups heading to Illinois.

#39 heading to Skokie, Illinois is too frightened to travel right now, so he will be staying put.

Please note the following meeting spot changes effective 9/23/23:

Springfield, IL: Cotton Hill United Methodist Church, 5931 N. Cotton Hill Road

New London, MO (formerly Troy): Love's Travel Stop 17550 MO-19

Mt. Pleasant, IA: All God's Creatures (not open yet) 2205 E. Washington Street

(We are removing the Taylor stop, so times may change a bit.)

*****ADDITIONAL PASSENGERS MAY BE ADDED*****

15-20 minutes added to each leg for transfer and potty breaks, cleaning crates or just plain old loving on the dogs. All legs will be monitored. Please email us directly at PawsTransports@gmail.com if you are able to assist. If you would like to volunteer only as BACKUP if the leg doesn't fill, please indicate clearly on the email that you are volunteering only for backup. I also appreciate offers for backup if a leg is filled should an emergency occur.

THE FINE PRINT: As a volunteer transport coordinator, we are dependent on what the senders tell us about the passengers' temperaments. The very nature of rescue transport creates some risk for those who participate in it; even a good-natured dog may find it stressful to be passed from stranger to stranger and cooped up with unfamiliar dogs and, in consequence, may act in uncharacteristic ways. No one associated with this transport can accept liability for any accidents or incidents that may occur during the transport.

Passengers listed in red still need a ride. Green ones are good to go!
