Black Lives Matter.

Say it and live it loud and clear. Below is an initial list of organizations, funds, and practices. These are resources focused on continuing to share important information about uprisings, movement work, and healing practices, and to amplify Black visions, voices, and movement so that justice can come.

We encourage you to get oriented: what position are you in, in relation to the uprisings? What are your best tools and resources to support?
We encourage you to think long-term: join now *and* move at a pace you can sustain yourself for the long haul, after this wave.

Accomplishments of the uprisings so far

A continuously updated link, available in several languages, organizing different ways of supporting the Movement for Black Lives and uprisings. There is also a live map of current protests, worldwide.

Local Efforts
This is a list highlighting organizations, efforts and funds local to Philadelphia and PA. We hope this can be of use as a starting point, and that you will add and contribute from your own locations. Please feel free to use this template to help create local resource pools for other areas/cities and to add more to this list.
