

# Invite a delegate to access my GoDaddy account

You can invite a delegate (like your web designer or developer) to access the GoDaddy products in your account. Delegates can open and use your products, but they can't view or change account information like your payment methods and passwords.

1. Go to your GoDaddy [Delegate Access](https://account.godaddy.com/access) (<https://account.godaddy.com/access>) page. You might be prompted to sign in.
2. In the **People who can access my account** section, select **Invite to Access**.

## People who can access my account

You can also grant someone access to your own account.

+ Invite to Access

3. Enter the **Name** and **Email** address for the person you're inviting.

×

## Invite to Access

Enter a name and email address for the person you'd like to grant account access. Then, select an access level and click Invite.

**Name \***

Jane Pointsman

**Email \***

jane@coolexample.com

4. Select one of the access levels. **We need \*at least\* Products & Domains.**

Access level requested\* [Learn More](#)

**Products, Domains, & Purchase**

Access to manage products, domains, and purchase products using credit cards stored in the profile. No access to view or modify the payment information.

**Products & Domains**

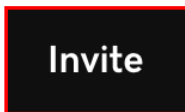

Access to manage products and domains only.

**Domains Only**

Access to manage specific domains only. Choose individual domains under My Domains.

5. Select **Invite**. We'll send the person an email invitation to access your account. Once the person accepts, we'll let you know.

By clicking Invite, you agree to [Account Access Terms of Service](#)
