

SOC 204 Week 3: Discussion Prompt (Instructions)

Instructor Note: This is a page in Canvas that links to the assignments listed below.

Each week you need to choose one sociological perspective (symbolic interactionism, conflict, or functionalism) and submit your assignment under the correct perspective name. Each assignment is worth 20 points. You can earn a maximum of 50 points for each perspective.

This means that you need to give each perspective a try three times, so it is more or less evenly distributed among our 10 weeks.

I will grade this assignment based on

- how well you defined the terms / described the theories you needed to define/describe
- how well you described the sociological perspective you were working from
- how well your title matches the content of your prompt (no title = less points)
- how well you answered the question
- how well you showed the influence of your perspective in your reasoning
- how well you cite your textbook

Choose ONE of the three following assignments:

- [\(Choice 1\) Week 3 Discussion Prompt - Symbolic Interactionist Perspective](#)
- [\(Choice 2\) Week 3 Discussion Prompt - Conflict Perspective](#)
- [\(Choice 3\) Week 3 Discussion Prompt - Functionalist Perspective](#)
