

CANA CONNECTIONS

BY BETTY ETCHISON WEST

Subtitle: Life in Cana in the Thirties and Forties and Special People with Cana Connections

Published in 2011

from the Prologue: "I, Betty Frances Etchison West, the first child of Lola and Everett Etchison, am writing this book so my children and grandchildren will know something of life as it was in the tiny village of Cana in the thirties and forties and will become better acquainted with the people who were so important to me as I was growing up in that village. I will include information and stories about my ancestors, which I hope will make them seem more like real people and less like characters in a history book."

The 201 page hardback book was written over the period of twenty years. It includes many black and white photographs of her family and other Cana residents. Mail order information: \$45, includes postage, check to Betty West, 3532 NC 801 N, Mocksville NC 27028.

She wrote another book *Glimpses of Cana People and Places* that includes color photographs. Order from her; cost is \$50.
