On this page there are suggestions for how to do a good Flash Talk

<http://www.scidev.net/global/communication/practical-guide/flash-talk-science-video-guide.html>

For the talk you watched how, write a bullet list of how they followed the advice in the following areas:

1. Perfect your starting and ending
2. Make it relevant and relatable
3. Bring elements in from stories
4. Is there anything else from another section that you feel this speaker did exceptionally well?
