What is Court Runner APP?

You landed here because you are looking to hire a Process Server to serve or file your legal documents for you. That's exactly what we do! If you are ready to start your process serving, download the APP from Google Playstore or Applestore or you can also [order directly from our website](#). If you need help, chat with any of our customer support below

We are Court Runner, a Process Server application designed from the ground up to provide an efficient, intuitive, and accessible organized method of serving legal papers to whomever may be concerned. We happily and proudly serve everyone from individuals and startups, mom-and-pop businesses, all the way up to industry giants and law firms.

While the legal system in general can feel like an intimidating complexion of various processes and mechanisms that an ordinary Joe will have trouble even grasping in the first place, we're here to tell you that that's really not the case, and help you through one of the most vital and most often overlooked part in legal proceeding.

And the best thing about us? In our modernized world governed by technology, smartification, and digitization, we understand the vital part of becoming a part of this, and properly adapting to this environment.

So, enough PR talk – what does that mean?

We're an app!

Download us on your iOS, or android phone, and get started with all the information, resources and tools that you need to get going with Process Serving, getting all your legal documents to the right people on time, taking away the painful and anxiety-inducing part of the whole shebang.

Legal stuff is intimidating. So, we've put in our cumulative decades of expertise together and made it approachable.

Why Use the Court Runner APP?

So, you've met us – [Court Runner](#) – but what is process serving for those who don't really understand the terminology? What are the brief ins and outs? (by the way, there's a ton more information in our FAQ section as well!)

To put it simply, throughout various legal processes, documents need to be served to concerned parties that need to see the documents; this can be someone needing to show up in court for a hearing, an affidavit, a subpoena, and much more. And that is a process server's job!

The 'Process' of getting through to a licensed process server (where licenses are required) is already a hassle, let alone finding someone reputable and reliable. Your legal documents need to be in good hands, and in order to find these good hands you need to go through a lot of trouble on your end, looking through and putting in an enormous effort on your end to get everything sorted, and the process server, well, serving.

Which is what brings us to, well, us!
