

Create a high-end cinematic triple-exposure portrait using my uploaded photo as the only face and identity reference. Maintain 100% facial accuracy, including my natural skin tone, hairstyle, beard, facial features, expression, and proportions. Place one front-facing portrait in the center with a confident, serious expression, and two identical side-profile versions behind me facing left and right. Dress me in a slightly oversized black textured shirt with sleeves folded to the elbows. Use a dramatic radial motion-blur background in warm brown and beige tones with a shallow depth of field. Add a bold minimalist title "RAVAN" in large black modern typography across the top, partially blending into the background. Apply cinematic color grading, ultra-realistic lighting, sharp facial details, soft shadows, premium fashion-poster quality, symmetrical composition, 85mm lens look, HDR, 8K resolution, highly detailed, professional studio edit, Instagram poster aesthetic, vertical 4:5 aspect ratio. Same Face
