2. Rename the copy with your name, e.g., "TigerByte Co-Maintainer Application – Jane Doe".
3. Fill out your information in your copy.
4. Share the completed copy with us at [your email] or via the shared folder link.

TigerByte Co-Maintainer Application

****Welcome to the TigerByte co-maintainer application!****

Thanks for your interest in helping grow TigerByte. This form is designed to be simple and quick. Just tell us a bit about yourself, your experience, and why you want to help.

We review applications regularly, and will contact you if a role is available.

1. Personal Info

- Name / Nickname:
- GitHub Handle:
- Email (optional):
- Location / Timezone (optional):

2. Open Source Experience

- Previous projects contributed to:
- Languages / technologies you're comfortable with:
- Hacktoberfest participation (yes/no):

3. Interest in TigerByte

- Why do you want to be a TigerByte co-maintainer?
- Which parts of TigerByte interest you most? (Docs, scripts, issues, community, CI/CD, etc.)

4. Availability

- Approximate hours/week you can contribute:
- Preferred type of tasks: (Code review, mentoring, documentation, automation, etc.)

5. Optional

- Links to your work: (GitHub repos, portfolio, social media)
- Anything else you'd like us to know:

Instructions

1. Fill out all the sections that apply.
2. Keep answers honest and concise.
3. Share the link to your completed form if using a copy-per-applicant workflow, or submit directly if using a single collaborative doc.
4. No formal resume required — just your experience and enthusiasm for TigerByte.

Tip

★ Make sure your GitHub account is active and public, so we can check your contributions if needed.
