6. Financial support for women*
7. Babysitting / Kids corner / Lactation room? (Parents go ahead and make this more clear)
I think it would be great to have a "kids corner" and a lactation room (or isolated corner)

Gulcin:

* How to create initiatives to support women financially (travel sponsorship, discount codes for conferences, babysitting possibility at events etc) - being a board member i can take the lead to communicate with pgconf.eu board (Please go ahead and add this item to agenda as you see fit :))

Well I surely would appreciate babysitting possibilities but it's because I'm a parent (not a woman) ;-) (Just a reminder that daddys can take care of children too)

As a parent with a life partner not interested in conf talks what I would like is a babysitter at night to be able to enjoy social events with my husband :-)

And why not having trainings for kids ? (I think they can begin SQL when they're around 8. Well actually that's the age when my daughter begun... Oh, I haven't thought about the language issue...). But I'd like to be able to take my elder daughter sometimes so she could see what it's like and that there are some other women too.
