“Pants came back PERFECT!!!! Picking them up was a little inconvenient just because of very different schedules, but Lena was able to work with me & I was able to have a friend pick them up. When I tried them on, I was thrilled with the quality of her fix! They are absolutely fabulous.” - *Shirley C.*

“When I came to Lena with my jeans I wasn’t completely hopeful that they’d genuinely be able to be fixed. There was a huge rip in 4 different directions in the crotch area and almost none of it was on the seam. But just two weeks later I was given back a pair of perfectly mended jeans and if anything, they look even cooler now with the stitching on them. Her lines are very clean and pleasing to look at. Lena was also very polite and comfortable to be around. I’d recommend her to anyone looking to get any clothing work done.” - *Julian G.*

“Lena paid a lot of attention to detail and handled my mending with a lot of professionalism and care! I brought in men’s jeans that didn’t fit me well that I wanted altered to be low waisted and tighter around my hips with a more feminine fit and they turned out better than I’d expected considering how thick the material was, how uncommon the fly was, and given the strange proportions of the waist. The cargo pants I brought in to get a hole hemmed were very nicely done, and a lot of care was taken to match the stitching to the original thread of the pants. I would come back again to get alterations to my clothes.” - *Anonymous*

“My experience getting my sweater fixed was great! The work done completely hides where I had a hole in my sweater and very closely matched the original color of the sweater. It was very cheap, which I appreciated! It did not take long (2.5 weeks) which was super helpful. Overall, I would definitely recommend having Lena fix your clothes!!” - *Olivia M.*

“Shorts came out great, just like new! Dropoff and pickup was very easy, and the pricing is fair! I would def book again!” - *Anonymous*

“Affordable prices compared to actual tailors. She’s nice, fair, and organized. You also get the benefit of free redos if clothing doesn’t hold.” - *Brian N.*

“Had a brand new wool sweater that came with a ripped sleeve hem and she got it done super fast! I’ve been wearing it for the past week and it’s like the rip was never there in the first place, also got it done at a really reasonable price :)))” - *Avery Y.*
