Test Tips

You only have 20 minutes to do Writing Task 1, so make sure the points you include are:

Relevant = You will waste time and lose marks if you don't follow the instructions. Don't speculate or add your own opinions.

Not Repetitive = Don't say the same thing in different words, or write similar sentences about all the figures. Describe something different in every point. Make comparisons and describe trends rather than focus on individual numbers.

Accurate = Giving the wrong information loses marks, so study the question carefully and interpret data or diagrams correctly.
