

***NOTE: now that we switched to handouts, this info mostly outdated***

Every Wednesday you will be required to submit an assignment through Mastering Physics. If you have a laptop, please bring it. If not, hopefully you can coerce your smartphone or tablet to let you submit answers on the MP site (by requesting desktop site). Classmate Garrett Snyder has generously written up this [how-to guide for ios and android](#).

If all else fails, you may check out a laptop from various on campus resources or ask a friend to let you login on their laptop.

Your two lowest groupwork scores will be dropped. The groups and assignments are listed [here](#). Halfway through the semester, we will switch groups.
