Tips for Navigating the Event:

- Bring more copies of your resume than you think you will need!
- Take a few minutes to think about how you want to introduce yourself and key questions you can ask to start conversations with potential employers.
- Use the list of employers and the GoogleMap (links above) to decide which schools you most want to talk with. Go to them first during networking time.
- A table sign that says “available” has school representatives that are free to talk.
- A table sign that says “unavailable” is occupied; you should come back later to talk.
- Be open to talking with any school! If a school seems interesting to you but they weren’t one that you originally came to interview with, go ahead interview with them. They may be a perfect fit; if not, it’s an excellent experience for you.
