This poll was conducted between 9/10/20 and 9/25/20. Qualtrics, an online sample aggregator, conducted the survey online among self-identified likely voters in Nevada (n = 641). Qualtrics e-mailed individual respondents who then responded to the survey through a personalized link.

Qualtrics utilizes a double-opt in process and utilizes third-party verification to ensure that the responses to the survey are coming from real people. Qualtrics also uses digital fingerprinting technology to verify the identity of respondents. To ensure that respondents are paying attention to the survey, Qualtrics auto-filters any survey response that is completed in less than one-half of the median survey completion time. Qualtrics rejects straight-line or pattern responses. Qualtrics provides an attention check question at the beginning of the survey to ensure that a real person is completing the survey and paying attention to the survey.

The survey results were weighted by gender, race, education, age, and county size. The overall margin of error was ± 4%. Total column percentages may not add up to 100% due to rounding. BUSR sponsored and paid for the entire cost of the survey. This poll is connected to an independent study project that is being pursued at the MBA program for the Lee Business School at the University of Nevada-Las Vegas.

For more information about this poll, e-mail Alexander Chan (MBA Candidate '22, UNLV Lee Business School) at chana22@unlv.nevada.edu.

The survey questions were posed to all respondents in the precise order below. Eligible respondents only qualified as likely voters if they (a) answered "yes" to question 1; (b) answered "definitely vote" or "probably vote" to question 2; (c) completed the full survey. Qualtrics was directed to rotate the first two answers to questions 3 ("Donald Trump" and "Joe Biden"), 4 ("Lean towards Donald Trump" and "Lean towards Joe Biden"), and 7 ("Donald Trump" and "Hillary Clinton"). Qualtrics was instructed to offer a Spanish version of this survey to respondents.

Only respondents who answered "undecided" to question 3 were asked question 4. Respondents who provided an answer other than "undecided" to question 3 were not asked question 4.

Only respondents who answered "other" to question 10 were asked question 11. Respondents who provided an answer other than "other" to question 10 were not asked question 11.

Q1
Are you registered to vote in Nevada?

- Yes
- No

Q2
If you are registered to vote, how likely is it that you will vote in the November 2020 general election for the presidency?

- Definitely vote
- Probably vote
- Might or might not vote
- Probably not vote
