Baobab Oil

Baobab Organic Carrier Oil – Unrefined is a cold-pressed oil derived from the seeds of *Adansonia digitata* tree, yielding a rich golden liquid with a mild earthy aroma. This gentle extraction process preserves its full spectrum of beneficial lipids, making it an invaluable component in skin and hair care formulations.

With its balanced composition of essential fatty acids, this variety of Organic Baobab Oil supports skin conditioning and moisture retention while imparting a soft, smooth finish. Its lightweight, non-greasy nature absorbs easily and is suitable for formulations catering to all skin types. In hair care, it enhances hydration, improves manageability, and supports scalp conditioning, making it an effective ingredient in serums, masks, and leave-in treatments.

Cultivated and handled in certified organic facilities, Baobab Organic Unrefined Oil's oxidative stability is the preferred choice for formulators seeking to enhance the longevity of their products.

Botanical Name: *Adansonia digitata*

Plant Part: Seeds

Origin: Senegal

Extraction Method: Cold Pressed

Color/Consistency: Golden yellow liquid with a lightweight, silky texture.

Aromatic Summary: Mild earthy aroma that blends well with essential oils and other carrier oils.
Blends With: Compatible with a wide range of organic carrier oils and essential oils, making it a versatile addition to natural formulations.

BENEFITS

Organic Excellence: Baobab Organic Unrefined Oil is extracted from the seeds of the *Adansonia digitata* tree, cultivated without synthetic pesticides, GMOs, or chemical fertilizers. Formulators can have peace of mind when using this high-quality, eco-conscious ingredient in premium organic products.

Nutrient-Dense Composition: Rich in omega fatty acids, including linoleic, oleic, and palmitic acids, the unrefined variety of Baobab Organic Oil delivers deep hydration and enhances moisture retention. Its lightweight yet nourishing texture is especially beneficial in skin and hair care formulations.

Versatile Application: With its silky finish and subtle earthy aroma, Baobab Organic Unrefined Oil blends easily into a wide range of personal care products, including facial oils, lotions, massage blends, or scalp treatments.

Product Stability: The organic variety of Unrefined Baobab Oil is naturally stable and resistant to oxidation, helping to maintain product efficacy over time while contributing to a luxurious texture.

DIRECTIONS AND USES

- **Skincare Formulations:** Incorporate unrefined Baobab Organic Oil at 1% to 10% in creams, lotions, and serums for enhanced skin conditioning. It can also be used at higher concentrations in body oils and balms for a richer emollient effect.
- **Massage Blends:** Use at 10% to 50% in massage formulations, either as a standalone oil or blended with other carrier oils, to provide smooth application, enhanced glide, and deep skin nourishment.
- **Enriching Hair Care:** Add to conditioners, scalp treatments, and hair masks at 1% to 5% to enhance softness, shine, and moisture retention without weighing hair down.
