

What's New in Gimkit - Summer 2023

Game Modes to Try

One Way Out

Your goal: get off the ship! Answer questions to earn energy and move around. Knock out the enemy plants and get everyone off the ship to end the game.

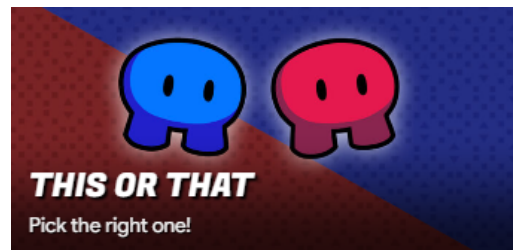

Snowy Survival

One player is randomly cursed and given a snowball launcher. The cursed player tries to knockout other players while they run. If players get knocked out, they become cursed too. The game is over when every player is cursed!

This or That

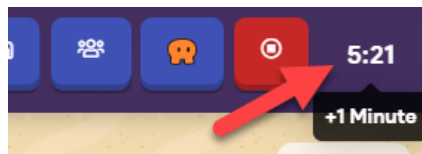

No kit needed for this mode! Ask students a question and ask them to select a correct answer. Award points for correct responses and/or ghost players who answer incorrectly. The best part of this mode - no prep required!

Updates You May Have Missed

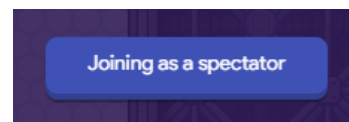

Add a Minute

Click the timer in the top right corner of the screen to add an additional minute to the game clock.

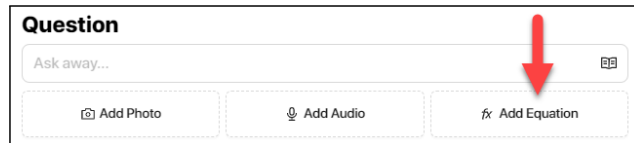

Spectator vs Player

Join as a spectator to see where your students are in the game. Once the game starts, use the next and previous buttons at the bottom of the screen to toggle between students.

Equation Editor

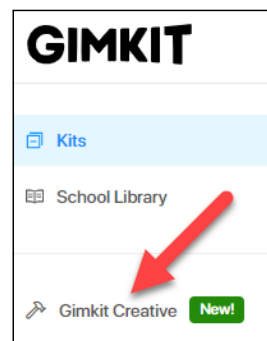

Use the equation editor to select from hundreds of symbols. You can also type things like “pi” to pull up the Pi symbol.

NEW Features

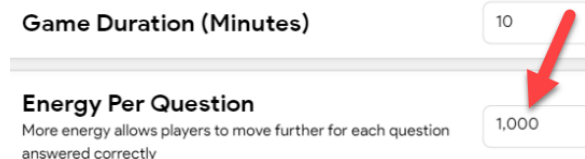

Gimkit Creative

Build your own game mode, map, and world! Check out the [Gimkit Creative Tutorial](#) to get started.

Your Rules

Customize the gameplay in Fishtopia, Tag, Capture the Flag, and Farmchain by selecting the energy/bait granted per question. If your students aren't progressing, increase the reward per question. Lower the reward per question if there's too much gameplay and not enough learning.

Just for FUN

Cosmetics

Players can earn Gimbucks for continued game play in 2D modes. Gimbucks can be redeemed in the [Item Shop](#) under “Cosmetics” screen.

New items appear in the shop every Tuesday at 7pm.
