

nisekoi rewatch torture log

ep 1 - proved to be the most average anime ever in like an episode. Already cringing. I want to end this asap

ep 2 - i hate misunderstandings as something of importance in a show's structure. Nisekoi is built upon a misunderstanding. I hate it. There no funny jokes. I hate every character. All of them are stereotypes. I pray for my own survival

ep 3 - more misunderstandings. more pain. no merit. Brings no joy. The end of s1 feels so far. I'm bored and cringing and want to get this over with

ep 4 - convenience is nisekoi's best friend. Op is actually not that bad. Seconds feel like minutes. Episodes feel like centuries. Onodera is one of the most painful and terrible characters in fiction. mc and onodera's whole spiel with each other makes me want to punch a hole in the wall and off myself. I don't even remember what happens and i can guess what will happen with perfect accuracy.

ep 5 - already an episode based around women in swimsuits. ass and breast shots within 5 minutes. i wanna die bro this show is genuinely a stain on humanity. also arent these fellas underage age like wtf. Im cringing so hard that my hands are turning into claws and im moving them around like im a dinosaur.

ep 6 - ost is bad. its funny how many times its trying to be funny but its ends beign a straight face moment. most terrible episode yet, if i hadnt already watched it the whole baseball scene probably would have made me punch a hole in my wall.

ep 7 - more unimpressive characters. more unimpressive interactions. This show just reeks of lack of intelligence. just dawned on me that this might be ecchi. Makes this much worse for many reasons

ep 8 - every character is mad annoying. like its crazy every character contributes to making this show worse. and now theres feet wtf bro. everytime they try to make u laugh i cry. the lack of progress being made always hurts but then again thats the whole show. also always hurts when majority of the cast are women and want mcs dick but mc is the most plain lame and would pull no bitches if this was accurate

ep 9 - im questioning why im even rewatching this in the first place. my plan was to finish the job but im not gonna watch s2 i cant take it. i actually kinda feel like crying its so miserable. already a hot spring episode god this mangaka deserves jailtime for theft cuz nisekoi is the combination of the worst most uninspired tropes in anime he stole. Im so close to throwing my mic across the room due to this show

ep 10 - this show actually gets me as mad as i get at for honor. I'm pulling my hair out. I dont know if i can actually watch this with 100% attention anymore. im gonna go crazy. im gonna smash something.

ep 11 - new day. more pain. god i hate mc this guy is a friggin loser. PROGRESS?!?!?!? God damn i didnt think it was possible

ep 12 - its shocking, the misery doesnt end but its no where near as bad now. Wonder how long it will take for the torture to get back to where it was. The coincidences are starting to get ridiculous though. Convenient coincidences for the plot = bad writing

ep 13 - new territory. new misconceptions. more of mc being terrible. like this dude fantasizes about women. hes a loser. Too bad this is a harem and he gets women undeservedly. This feels

like its turning into something like fate route. Don't know if its a good thing, but this feels much more bearable to watch now.

ep 14 - worthy to note this show kinda suffers from main character syndrome. More excuses to add more crappy characters that still want mcs cock. The pain is returning. This is why I hate harems. I think the new character is made to be annoying, so nisekoi paired with this reverted it to being as terrible as it was before. Obviously they do the annoying character bad and she is a terrible character, but they can be good and enjoyable characters (erika). I'm back to dying of cringe

ep 15 - I prefer for shows to be in the realm of realism: like what is happening makes sense. The whole plot of this show doesn't make sense. Never would you be a loser ass fella who has a bunch of bitches on ur dick who also all met you the summer of 10 years ago and got a key from him and conveniently all met at a school in Japan. I feel like it is self aware how unrealistic it is. The show realizes itself how bad it is. And it proceeds to be bad. Anyways I want to off myself again. How is it like almost all factors of the plot are built upon misunderstandings like goddamn

ep 16 - I know telling someone who u like that u like them is embarrassing and stuff but like is it really so impossible to say as nisekoi puts it? No of course not nisekoi is just retarded. Overall this episode was the usual but it was hella boring honestly. Still terrible but im nodding off.

ep 17 - I'm kinda half asleep now. like every single stereotypical scenario for a sol anime has shown up. Like this mangaka cant even think of his own idea of what the characters are doing like WHAT. One of the best episodes. Was boring and I didnt enjoy myself but i experienced little pain

ep 18 - the 3rd episode where its sole purpose is to see anime girls in bikinis and/or fully nude. Think the mangaka is a straight up pedo at this point or really lazy at writing. Like I dunno if im supposed to be turned on they are like 15/16. They are trying really hard to do so. If i got a dollar for how much breast shots they had in this one episode i could get a whole cheesesteak at dalessandros. No characters in this show can detect any kind of lie or sarcasm no matter how obvious. I would usually be having conniption on this but i think ive consumed so much nisekoi ive gotten used to how shit it is. Unoriginalness and laziness all around. Pain and regret are still in tact. Journey's over soon though

ep 19 - Does the move of making something super obvious to the audience but the characters are too stupid to figure it out. Typical nisekoi behavior. All plot elements and events in the story feel stolen, ive seen something that has happened in the plot somewhere. I can still guess what will happen perfectly. I'm certain I've gotten used to the cringe, but the pain is almost over. ONE MORE EPISODE

ep 20 - the whole key plot being shafted at the end is obviously not very good writing but that plot was terrible so its a win, actually makes the final episode to be one of the few bearable episodes. Cannot state into words how hype I was when the final credits started rolling. The torture is over. I have survived nisekoi. Screw s2 aint doing that
