

School Level Point of Contact Information

The McKinney-Vento Homeless Assistance Act requires that every school district provide education and related services for students experiencing homelessness. To ensure your district remains in compliance with the law while providing an education of the highest quality to homeless students, a point of contact is needed in every building. This person will work with the local liaison to ensure students are identified and have appropriate opportunities to enroll, attend, and succeed in school. To assist with these tasks, the local liaison will provide support and training for the building-level points of contact.

The building-level contacts in USD 331 are as follows:

School Name: Norwich Schools
