

1. Go to the inventory and look for a NPC Spawn Egg.

2. Add it to your hotbar.e

3. Open the chat by pressing the / key on your keyboard. Then type /wb in the chat bar.

4. Press ENTER. You should see this confirmation on your screen.

5. Now place an NPC Spawn Egg anywhere in your world.

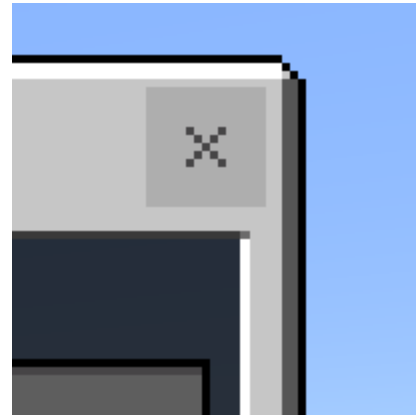

6. Click on the NPC to edit it.

7. Here, you can change the Appearance, Dialog, and some Advanced Settings.

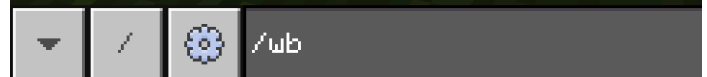

8. When finished with your edits, click on the X in the upper right corner.

9. Open the chat again by pressing the / button on your keyboard. Then type /wb in the chat bar.

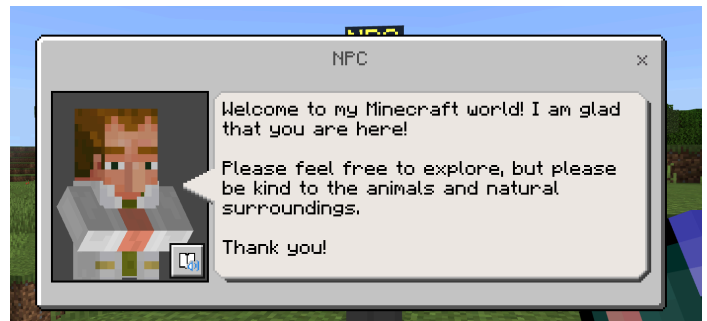

wb - Toggle World Builder status of caller,  
/wb

10. You should see this confirmation.

11. Now test your NPC by clicking on it!

12. Congratulations! You just added your own NPC to your Minecraft world!
