

ATTENTION TO 5B STUDENTS

EXTRA CLASS ON TOMORROW NIGHT

To all 5B students, I have arranged an extra class for you which will be held on tomorrow night (Wednesday 15/2/12) at Multimedia Room (9 p.m.)

We will discuss the exercises for topics Gradient & Area Under A Graph and Angle of Elevation & Depression.

Thus, don't forget to bring along the handouts of exercises for these two topics that I gave you earlier.

Also, make sure that you've completed all the exercises before you come to class!

See you soon!!
