School:

Teacher (History/Civics/Social Studies): Jake Lawrence

What profession do you want to enter upon completion of schooling?

Medicine

What are your hobbies, interests, school involvement, community involvement?

Violin, Mock Trial, Swim, Volunteering

What was your inspiration for your essay?

I was inspired to write this essay because many people I know are unable to serve in the military. However, they are still important for the success of my community because they help others. I wanted to capture how their small impacts add up and benefit everybody. I wanted to be able to apply what I learned from my teachers about Ancient Rome, and show how their lessons impact even my life outside of school.
