Timing chain (MAZDA)

My Mazda 6 packed up after juddering and grinding to a halt, after the emergency service arrived and couldn't solve the problem the car was towed to a local garage who diagnosed a timing chain failure which they couldn't fix so they gave me Nigel Lang's number who arranged for pickup and they diagnosed Low Compression which needed new cam shafts, valves, head gasket kit, vacuum pump, oil pump, injector seals, oil and filter. It was a Labour intensive job which Soran and his team completed First Class and even washed it prior to my collection, I wouldn't hesitate to use them again.

female

Came here for my MOT, I drive an expensive car and they took great care of it. The guys were great, I particularly loved that they had a female mechanic. Can be a bit daunting going to a garage as a female but I felt very taken care of with Kezia. Highly recommend this place to all my friends and family. Great work guys!

Best garage in Bolton. Very very honest (unlike other garages around here!) Excellent Service, had a major water leak, excellent advise on issue and precise costs given for the work required. Also booked them for the Full service and MOT, which was completed at the same time. Can't fault these guys at all!! Keep up the good work.

Booked my MOT online through Bookmygarage and the next morning they called to confirm my time, as I thought my old car failed but only on the exhaust so once explained the guys ramped it, ground it and welded it to a pass, the price for the MOT was amazing and the repairs were more than reasonable, couldn't rate this Garage highly enough! Even the gent in reception was amazing throughout. Thank you so much Nigel Langs Garage, I will be back for a service as soon as I can spare it and will recommend you to all my family and friends. Bloody Brilliant

I'm based in Manchester but drive to Stockport because this is the only Garage I trust 100% not to rip me off and for really high levels of service. Always been impressed with how fast they are and how cheap compared to everyone else. Definitely worth a trip down the m60

Used Book my garage for a full service & diagnostics. £176.17 Bargain. Paid the price I was quoted online ✓

The lad who did the diagnostics assured me he couldn't find anything significantly wrong with the car which gave me confidence.

The lad at reception was a top bloke.

Looks like theres no parking at the front so parked round the corner. didn't realise how big the garage was until I collected the car (there's parking available at the rear)

Local garage, Local Lads

Probably won't ever go anywhere else after this experience.

May enquire about labour costs for aftermarket parts in the near future if that's something they can offer

Nice one 👍

Had my MOT done here. Unfortunately it failed but the guys managed to fix the issue for me for a small price and I was driving home with a PASS. Car is definitely eating less petrol after the fix which is a big plus!! Thank you guys :)

Just want to say a big thank you to the guys over at Nigel Langs Garage. I dropped my car off in the morning and they had fixed everything on the M.O.T and more by the end of the day. On top of that, it was very cheap in my opinion.

I will be going back to this garage in the very near future.
