Yamaha Whitetail Diaries – In Pursuit of Whitetail

In this episode of Yamaha's Whitetail Diaries, we showcase the bookends of the 2018 Hunting Season with Wade. He begins his season with a crossbow hunt in Central Texas and ending the season with a handgun hunt in South Texas with both hunts having up close and personal encounters with whitetail deer.

Crossbow hunting continues to rise in popularity and as you know we love to hunt with our TenPoint Crossbows as they lead the industry with their powerful lineup. We will take a look at one of TenPoint's Newest Crossbows for 2019, the Nitro XRT. This crossbow has been labeled TenPoint's most powerful crossbow ever, reaching speeds up to 470 feet-per-second.

We are also going to look back at one of Wade's memorable hunts from the beginning of the season. He's hunting with the TenPoint Nitro X, another powerful crossbow in the TenPoint Crossbows Arsenal. Wade will be hunting out of a pop-up blind on the top of a pond dam overlooking a flood plain. Deer have frequented the area due to its lush forbs thanks to the pond along with ample shade to keep them cool during the warm days of the early season.

In the second part of the show, we join Wade during the last hunt of the 2018 season. He's set up in an area that he hasn't hunted before, but mature deer have been spotted on camera. One particular buck has eluded Wade for the past year never seeing him in person, only on our StealthCam's. He decides to end his hunting season with one of his favorite firearms, the Thompson/Center Encore Pro Hunter in their popular handgun configuration chambered in .308. Wade will venture out to the area known as "The Windmill" in hopes of meeting this buck face-to-face.

Americana Outdoors – Bass Pro Shops and Cabela's CLUB Ranger Boats Experience

In this episode of Americana Outdoors, we're taking you to the Bass Pro Shops and Cabela's CLUB Ranger Boats Experience where we're giving you an inside look at one of the many exclusive programs for Cabela's and Bass Pro Shops Club Members. Club customers will get a chance to tour the Ranger factory to see how boats are made and meet the

people behind the scenes. They will also get the chance to fish with pro anglers in a Pro-Am tournament, for a little competition, a lot of fun, and to see what goes into a tournament setting. We've got Wade Middleton, David Walker, Clark Wendlandt, and Jeff Reynolds joining us today, and this is going to be one competition you don't want to miss!

To kick things off, we're boat hopping and checking in with all of our teams to see how they're fairing on this first day of the Bass Pro Shops and Cabela's Club Pro-Am Ranger Boats Experience Tournament. See which team is leading strong, and who's fighting to make a comeback! Then on day two, we're switching things up and swapping out which pros fish with each team. This means, Wade Middleton has jumped up from last place into second, and Jeff Reynolds now finds himself in first. David and Clark have gone from duking it out between first and second to now working their way out of third and fourth, respectively. Amid all the switching and swapping of pros, teams will keep their score totals with them. The action is sure to keep you on the edge of your seat as we watch this competition unfold!

As we wrap up day two of this unique and fun 2-day Pro-Am tournament, we check in with the teams of Wade Middleton and Jeff Reynolds for a little more action on the water. See which team will come out on top at the end of the day!
