ACC Q1 2026 Payment – Issue with Retroactive Application

General

Apr 30

I agree with [@tksarah](#) . It is true that since [@Mouthmouth68](#) was involved in discussions within the ACC, this may not have been a decision applied unilaterally. However, I believe the “application period” was not explicitly defined at that time. As a result, it effectively became a retroactive decis...

How to retrieve staking rewards from UGC grant

General

Apr 29

It is the same as receiving regular developer rewards, but does this mean you are no longer sure how to claim them in the first place? If you log in with the registered developer wallet, you should be able to access each project’s management page. Also, UGC ended with the transition to Tokenomics ...

Proposal: Yoki Community Mini-Game Challenge

Astar

Apr 27

I tried Yoki Arena, and my honest impression so far is that it's a bit hard to understand. The generation of new Yoki-style characters and equipment is very well done. However, personally, I think it would be more meaningful if existing Yoki NFTs could be utilized. Of course, it's important that ne...

Thank you for sharing the details! It would be a waste to leave the Community Treasury unused, so I think supporting dApps under clear guidelines like this is a very good approach. **Sponsorship Proposal: Astar Network @ Cripto Latin Fest 2026**
Astar Initiatives • Jun 30

Thank you for the proposal. However, at this point I am somewhat hesitant about sponsoring events. The reason is that, given Astar's current situation, there are very few compelling points that we can realistically promote. There is still potential. If developments such as AstarFi—or other upcomin...

5. Future Plans

I will continue to support the Japanese community, which is very important to Astar and Soneium because of its origins and needs strong support.

As Astar Evolution Phase 2 approaches, I plan to provide more comprehensive support to the community and create explanatory articles accordingly.

Community Expansion and Engagement

Category	Future Plans
CM	- Answers to Questions - maintaining public safety - Ticket Response - Explanation
GOV	- Active participation in threads - Not trying to earn a post count
SM	- Information sharing about Astar - Explanation of topics discussed in the Forum and other forums - Information sharing about Soneium
EM	- Space (commentary and Q&A) at X twice a month - As soon as the details of Astar Evolution Phase 2 are finalized, we plan to have Sota appear as well.
CC	- Japanese translation of articles is officially done, so if necessary, further in-depth content is published in articles

6. Other Evidences

Nothing in particular.

7. Conclusion

I don't have anything in particular to say, but I am doing what I can and supporting Astar. I try to talk to as many people as possible without exaggeration or bias.

8 - About me

you425 - I started to disseminate information in the Web3 community in 2021. While supporting members in the Japanese Web3 community, he became an Ecosystem Agent of Astar Network in February 2022. Since then, he mainly supports the Japanese community.
