James Rhodes: Well, you know, the suit can take the weight, right? So I take the tank, fly it right up to the General's palace, drop it at his feet, I'm like, "Boom! You looking for this?" [Stark and Thor just look at him blankly] "Boom! Are you looking..." Why do I even talk to you guys? Everywhere else that story kills.

James Rhodes: Quality save. So, no Pepper? She's not coming?

Tony Stark: No.

Maria Hill: Hey, what about Jane? Where are the ladies, gentlemen?

Tony Stark: Well, Miss Potts has a company to run.

Thor: Yes, I'm not even sure what country Jane's in. Her work on the convergence has made her the world's foremost astronomer.

Tony Stark: And the company that Pepper runs is the largest tech conglomerate on earth. It's pretty exciting.

Thor: There's even talk of Jane getting a... um, uh... Nobel prize.
