INSTRUCTIONS:

You pick your cardstock color.
 $\frac{1}{4} \times 1 - \frac{3}{4} \times 7$ (x2) - $\frac{3}{4} \times 4 \frac{1}{2}$ (x2) - $\frac{3}{4} \times 9$
Foil or Glimmer bows (gingerbread man dies).

Use your bone folder to loosen the paper fibers on both the 7 inch pieces (wings), one $4 \frac{1}{2}$ inch piece (head) and the 9 inch piece body. Using glue connect as shown above. Using the second $4 \frac{1}{2}$ piece as the bottom of the body (bell looking 'dress')
Clips help hold so you do not need too.
Bow is made next.

So the bow looks like it is floating. Using the same cardstock color as your angel. Using glue add the end of your ¼ x 1 inch piece of cardstock to the drop ribbons as shown above.

Add your tie section on top to hide your attachment piece of cardstock. Secure also with glue.

Place your bow on the top of the 'dress' secure with glue.

Trim if needed.

Once you like the placement add your head circle with the seam at the bottom. Hold with a clip to dry.

Add your wings in the same fashion.

Using a small hole punch, make a hole in the top and bottom of the head sections.

14 inch Bakers Twine folded in half, make a large knot.

Feed that through the holes using a piece of wire or threader.

Once through, knot the open end of the baker's twine.

Hugs and Have a Great Day getting Crafty!!
