GENERAL QUESTIONS

What types of events are there?

Normal Events: These are either **monopoly events** or plot events without voice acting. They feature **2 new SSR** and use **Normal Tears**. After events end, the cards are featured again in the **Rotation** banners with different pairings, sometimes they enter Large Event/Birthday card pools.

These events often have 2 new SR, EXCEPT RRG Events with no SR. If it is a **monopoly event**, 1 SR will be **free** to obtain; this free SR will not return after the event is over.

- **Summer Breeze (Qixi)**
- Symphony of the Night (SotN)
- **Xmas Partyland (Xmas)**
- Romantic Rail Getaway Part 1 (RRG pt.1)
- Romantic Rail Getaway Part 2 (RRG pt.2)
- **Electrifying Night (EN)**

Large Events: These are plot events with voice acting and a large number of rewards. They feature **4 new SSR** and use **Special Tears**. After events are over, the cards **are only obtainable again in its respective rerun**.

- Lost Gold (LG)
- A Love Poem to Skadi (Skadi)
- Kiss of Fervour (1st Anniversary)

Birthday Events: These are events with birthday stories and rewards such as Invitations, Badges, Tears, etc. They feature **1 new SSR** and use **Normal Tears**. After events are over, the cards **are only obtainable again in its respective rerun**.

- Artem Wing (April 26)
- Marius von Hagen (June 21)
- Vyn Richter (September 27)
- Luke Pearce (December 5)

Special Consultation Events: Special Consultation is a monthly event available in the Field Work feature that allows you to grind for MR, outfits, and name cards.

What are Special Tears?

Special Tears are currencies used to pull in Large Events. Each Large Event has a different Special Tear design so they cannot be shared. They can be converted at 180 S-Chips per Tear.

There are two types of special tears: **Tears of Themis - <Name>** and **Tears of Themis - Limited**. Both types of tears are used to pull in its respective Event Banner. After the event ends, unused **Tears of Themis - <Name>** will be converted to **Normal Tears** at the ratio 1:1; while **Tears of Themis - Limited** will be converted to **Stellins** at the ratio 1:10,000.

<Name> is because the Tear name changes in each event; they are the ones you get from converting S-Chips or from buying Mall packs. **Limited** are the free tears obtained by logging in and such.

How does pity work? Does it carry over to the next banner?

There is no soft pity in the game. Only hard pity, which is the guaranteed SSR at the 100th pull if you have not pulled any SSR before this mark.

Event Type	Tear Type	Pity Count	SSR Card Pool	Carry Over?
Permanent	Normal	100	Only Permanent SSR	**No**
Rotation	Normal	100	Only Rate-up SSR	To next Rotation
Normal (2SSR)	Normal	100	Only Rate-up SSR	To next Normal (?) **Unconfirmed on Global**
Large (4SSR)	**Special**	100	Varies	**No**
Birthday	Normal	90	Varies	To next Birthday

Permanent Banner: Pity at 100 pulls, any SSR **including duplicates** will result in a pity reset. Pity is not shared with any other banner in the game.

Rotation Banner: Pity at 100 pulls, any **new** SSR will result in a pity reset, **duplicates do not count**. Pity carries over to the next Rotation banner.

Normal Event Banner: Pity at 100 pulls, any **new** SSR will result in a pity reset, **duplicates do not count**. Pity carries over to the next Normal Event banner **(Unconfirmed on Global)**.

Large Event Banner: Pity at 100 pulls, any **new featured** SSR will result in a pity reset, **duplicates and non-featured do not count**. Pity **does not** carry over to the next Large Event.

Birthday Banner: Pity at 90 pulls, pulling a birthday SSR will result in a pity reset, **non-featured do not count**. Pity carries over to the next Birthday banner.

Why did I get the same SSR twice?

Because you are only guaranteed a new SSR on your guaranteed pull (100th). If you get an SSR before this, it can either be a new SSR or a duplicate SSR.

What is the ticket system?

A system where the player is rewarded with a set number of tickets every time they do a pull in the gacha. These tickets can then be exchanged for SSR and SR cards of choice. Currently, the ticket system is no longer available on Event banners on CN/TW version, and has been replaced by the hard pity system. The ticket system currently **does not exist** on the Global version, and will most likely not be available in the future.

What are MRs? How to obtain?

MR is a new rarity introduced later on in the game. MR is not from gacha but from time-limited events and cannot be obtained after the event is over. You can only obtain 1 copy of each MR through events.

Bingo Events have MR of all 4 boys:

- 1st Bingo (March 2021): the first MR will cost ~1000 S-Chips to obtain, and ~2500 S-Chips for each additional MR.
- 2nd Bingo (August 2021): the first MR can be obtained for free, and ~2500 S-Chips for each additional MR.

Special Consultation Events have MR of only 1 boy at a time. SC Events require grinding and you need S-Chips to grind enough attempts. These MR cost ~2500 S-Chips each.

- Vyn Richter MR (April 2021)
- Artem Wing MR (June 2021)
- Luke Pearce MR (August 2021)

MR cards do not have card stories but instead have Private Messages. MR has 3 skills and slightly higher stats than SR. MR can only be evolved once and max out at Lv.100. In-game rarity and power-wise, it's **SSR > SR > MR > R**.

What are outfits? How to obtain?

Outfits is a new feature introduced later on in the game, you can change the outfit of your boy when visiting him. List of outfits:

- Leisure outfits: Permanent, free to grind
- Electrifying Night outfits: Limited, paid to get; costs 68 CNY each
- RRG outfit (Luke): Limited, paid to get; costs 40 CNY
- Special Consultation outfits: Limited, require S-Chips to grind enough exchange items
    - Luke Pearce (May 2021)
    - LG Marius von Hagen (July 2021)

What is furniture? How to obtain?

Furniture is part of the Lounge feature introduced later on in the game. Furniture comes in sets, completing a set will let you watch the boys interact with different furniture.

During the events, complete event tasks to earn blueprints and wooden planks to build furniture. After events end, **regular sets** will be added to the Lounge Shop and can be exchanged for using vouchers while **time-limited sets** will not be added to the store.

- **Log House**
- **Spring House**
- **Summer House**: Each furniture is rewarded for pulling x times in the event banner; roll 100 times to complete the set. This set is from the 1st Anni event.
- **Winter House**: Each furniture is rewarded for reaching level x in the cumulative recharge event. Total cost is 328 CNY. This set is from the Skadi event.
- **Fairy Tales House**
- **Vyn House**: Each furniture is rewarded for reaching level x in the cumulative recharge event. Total cost is 328 CNY. This set is from the Vyn Birthday 2021 Event.

When is x coming out?

I wouldn't be sitting here playing gacha games if I could predict the future. Use the CN dates as reference only.
