

Assistance: Tetun, Portuguese, Indonesian, English and two other languages in one App

This application presents the Word of God in several languages: 1) Tetun Dili NT, 2) Tetun Belu NT, 3) Portuguese Bible, 4) Indonesian Bible, 5) English Bible, 6) Bahasa Malaysia (Malay), 7) Mandarin

Audio: For Tetun Dili and Tetun Belu, we have inbuilt the audio files of John's Gospel in the app itself. For Portuguese, Indonesian, English and Malay and Mandarin, the audio New Testament files can be downloaded onto your device if you give permission for that.

Assistance:

If you press the little "book" icon on the top right you can change the windows on the screen:
Now choose either

- "single pane" if you want to see the Tetun only
- "two panes" to display the Tetun at the top, and another language of your choice at the bottom
- "verse by verse" to display a verse in Tetun followed by the same verse in one of the other languages of your choice.

- Bookmark and highlight your favorite verses
- When you tap on a verse, an image button is shown on the bottom toolbar. When this button is pressed, the 'Edit image' screen appears. You can choose the background image, move the text around the image, change the font, text size, alignment, format and color. The finished image can be saved to the device and shared with others.
- Give your phone permission to download the audio files for the New Testament texts. Once downloaded, the audio files will remain on your device for further use in offline mode.
- Write your personal notes
- Search for words in your Bible
- Swipe to navigate chapters
- Night Mode for reading during when dark
- Click and share Bible verses with your friends via WhatsApp, Facebook, E-mail, SMS etc.
- No additional font installation required. (renders complex scripts well.)

- Friendly user interface with Navigation drawer menu
- Adjustable font size and easy to use interface.

Website with information users can use to ask question and request support
