

SPEAKER 1

Have you ever wondered why some affiliates make a ton of money so easily and yet nothing ever seems to work out for you? Isn't it annoying that so called super affiliates make millions of dollars per year while you're lucky if you don't lose money? What do successful affiliates know that you just don't? I used to ask myself that very same question until one day I stumbled upon a secret. Not some cheesy so called secret, but the real secret that separates the top earning affiliates from the ones struggling to make ends meet. It all has to do with a chance encounter that changed my entire life forever. And if you keep watching, I believe it's about to change yours too. This is a completely different approach to affiliate marketing. One that took me from a struggling broke wannabe to pocketing \$453,000 in a single month. And the best part? This system doesn't rely on Google, Facebook or ClickBank. Truth is you don't even need a website of your own. I consistently earn six figures a month, month after month, even though I am usually on vacation with my wife and four kids. I know that's a big claim, but I'm prepared to show you how to copy my success in the next seven minutes. So pay close attention and I'll reveal what I call my invisible affiliate system. This system is the difference between ads that crash and burn and fill you with dread versus ads that take off like a rocket and fill your bank account with cash. Going to bed, dreading going to work the next day versus waking up in the morning and asking yourself what do I feel like doing today? Working tirelessly for hours on end and barely making any progress versus putting in minimal effort and watching the money roll in effortlessly. So stick with me till the end of this video and I'll give you everything. Because once you have this simple system working for you, you'll be shocked how fast and easy affiliate commissions deposit into your bank account. And I don't care where you're at right now, you may be shackled to a dead end job. Watching the hours slip away while your dreams collect dust. Your alarm clock may feel like a prison bell blasting you awake for another day of soul grinding labor. It's possible that Sunday night fills you with dread. Your mood syncs with the setting sun as you mentally prepare for another week on the workplace treadmill. Well, I'm here to tell you your life doesn't have to be that way. Not anymore. The invisible affiliate system will break you free from the shackles of your job and open the door to True financial freedom. So take a deep breath right now, Close your eyes and imagine your new future. Your credit card statement shows up and you're not afraid to open it. You have more than enough money to pay it off whenever you want. You walk into a car dealership and buy your dream ride in cash without batting an eyelid. Your closest friends are astonished and a tad bit jealous when they see your new house, your new boat, and your new lifestyle. Your kids tell all their friends about how great you are because you've given them the life they've always wanted. That's not just wealth. That's freedom. And it's yours for the taking here, today. How do I know? Because this is the same system that saved my life. Taking me from a struggling affiliate, pouring money down the

drain to a rainmaker skyrocketing my take home income to a whopping \$250,000 per month. I'll reveal all my secrets here soon, so keep watching. You see, this system didn't just work for me. It works for others too. Like Sean, who now wakes up to an extra thousand dollars in his bank account every single morning. And Seth, who pockets as much as \$3,000 every 24 hours. Like clockwork. Or Darcy, who used my invisible affiliate system to rake in \$155,490 of cold, hard cash. And remember, they did all this without Google, Facebook, ClickBank, or any other mainstream site. Now, you may be wondering if. Who the heck are you? Well, my name is Adam. You probably never heard of me before, and that's by design. I'm not one of those Internet gurus selling hope and dreams to newbies. I've been elbow deep in the trenches, not just talking the talk, but walking the walk for nearly 20 years. I'm in my early 40s and I'm a Christian. And my calling is to teach the invisible affiliate system to as many people as possible. God has been so good to me and I love passing on what I have learned so I can help others who want financial freedom. And today, I'm excited to share a discovery that can turn any affiliate marketer into a super affiliate, no matter their experience level. Once you discover the secret for yourself, I believe you can earn as much money as you want as long as you follow my directions carefully. You see, my invisible affiliate system is as easy to set up as making your morning cup of coffee. You do not need to be a computer whiz or tech master. I'm living proof you don't even need your own website or your own products. And you never have to deal with Facebook, Google, TikTok, or any of the affiliate traffic sites all the gurus swear by. In fact, using Google and Facebook is the reason you're not seeing the success you should be in your affiliate business. More on that in a minute. I've laid out this simple system based on real world rules I uncovered through trial and error that I will now pass on to you. When you apply these rules, it will feel as though you are creating cash on demand in your business. You see, it's not fair that this money making system has been hidden from you by a tiny group of multimillionaire affiliates. It's time you get your fair shot at cashing in. Because once you tap into the power of the invisible affiliate system, you can turn on the income faucet with the click of a few buttons. Imagine your bank balance growing even while you're not working, free from the tug of war with Facebook and Google algorithms or banned ad accounts without rhyme or reason. Instead, you wake up every day, roll out of bed and check your phone to see notification after notification of sales pouring in. When friends whine about their money problems, you'll smile quietly knowing you've outsmarted the system. In fact, you'll be invincible because you're part of an exclusive club that's cracked the affiliate money code, which is like having a license to print money. But first, I need to tell you the truth about me. My journey as an affiliate marketer was not all sunshine and rainbows. After about three years of constant struggle and restless nights, I finally started making pretty good money using an SEO organic hack I picked up on a website forum. I was on top of the world. Then it all came crashing down. Google

unleashed one of their infamous algorithm updates and my income evaporated overnight. I had to take care of my family. And even though I felt embarrassed, I swallowed my pride and went out and got a job. I now see that God was guiding me because my bosses were two geniuses who ultimately led me to become the multimillionaire I am today. One was a super affiliate who specialized in invisible media buys using a massive yet little known traffic network, ad servers, email and an automated engine for mass split testing. And the other was a 20 year engineer turned marketer who specialized in data analysis. Together they taught me what I needed to create my own system and set of rules. They set the foundation for what would become my invisible affiliate system. The key to the whole system is to remove chance by creating a mathematical advantage. Sort of like knowing how to count cards at the blackjack table. See, my invisible affiliate system is really broken down into three simple steps. Number one, choosing what niche market to be in and what products to promote. Two, deciding who to promote the products to. And number three, knowing the exact traffic source to use to get all the traffic you need. That way you can take emotion and guesswork out of the equation. 99% of marketers get it wrong because their affiliate strategy looks like this. Number one, find a make money or health product on ClickBank. Two, drive traffic to a landing page you built on ClickFunnels. Number three, use Facebook ads because, hey, almost 3 billion people are on Facebook. What's wrong with that plan? Well, for starters, you are in the fiercest competition in the world. It's David versus Goliath. But this isn't the bible. So the one with the most money wins. And that's typically the big companies. You don't want to waste money fishing for customers where everyone else is fishing. This means you shouldn't waste money buying traffic on oversaturated platforms like Facebook and Google. Instead, you need undiscovered fishing holes, Traffic sources that very few others know about. So you can get affiliate sales for pennies on the dollar, keeping your margins high and your risk low. This in turn will allow you to scale your business and your bank account. And that is why I named my method the invisible affiliate system. Because you are tapping into invisible traffic sources that 99% of other affiliates don't know about. And when you have access to hungry buyers, becoming a successful affiliate really does get as easy as shooting fish in a barrel. It's like having a GPS to make money. Just like a GPS gives you step by step directions to reach your destination, my system gives you a proven step by step process to reach your profit goals. It eliminates the chance of getting lost or taking the wrong turn. Instead, you have a reliable guide that knows the fastest route to load your bank account with cash. But now I must warn you, this opportunity will not last forever. Like everything, it comes down to supply and demand. Once too many people get in on this, it will get harder. That's not to say it won't work. This unique strategy will always work. But getting results with this system will never be faster and easier than it is right now. That's why it's important that you pay close attention to what I'm about to

say. This proven affiliate system is working not only for me, but for the hundreds of people I have shown it to. And the reason it works is because it is not based on the person but on the process. Once I dialed in this process, I switched from watching my checking account dwindle to making bank day after day, week after week, month after month, year after year. It really is that powerful. This system is about finding the right products to sell to the right people. Then you tap into one of my invisible traffic networks to get high converting but inexpensive traffic very few people on the planet know about. Seriously? You'll be in a group I call the profit minority. You won't have to make social media videos, write blog posts, learn TikTok dances, or do anything silly like that. This system has nothing to do with anything being taught by others. In fact, I am the only person teaching this exact strategy as far as I know. And that gives you the edge you need to finally see the success you so desperately deserve. My special step by step system contains an invisible traffic loophole that big sites like Facebook, Google, LinkedIn, and TikTok don't want you to know. You see, they want to keep you in the dark about this untapped traffic source that exists outside of what I call the social media mafia. The truth is, as soon as I found this secret fishing hole, I kept it to myself. And I've spent more than a decade cashing in as much as I want. But all that changed on September 16, 2020. That's the day Apple launched a new feature on the iPhone that allowed millions of people to opt out of tracking. This meant Facebook could no longer show the right ads to the right people. Overnight, previously high profit campaigns fell apart, leaving hundreds of thousands of affiliates losing millions of dollars every day. The interesting thing is, during these dark days, for everyone else, I was making more money than ever because I was getting all the traffic I wanted and wasn't held captive by the whims of huge companies like Apple and Facebook. But enough was enough. I knew I couldn't sit back and watch so many in my community suffer. I had lots of free time on my hands. So I poured all my energy into sharing my invisible affiliate system with a few of my closest friends. And the results speak for themselves.

SPEAKER 2

There's a lot of bells and whistles out there. You know, it's on to the next great thing. But, you know, I feel like this one is the final solution, at least for me, and made about \$2,500, something like that.

SPEAKER 1

All right, so you're paying \$79 and then getting 100, 100, 510 back, right?

SPEAKER 2

These are all my different ads that I was running. And you can see as a result of this one, I made just a little over \$10,000, fired it up. But this particular deal has already got me, you know, \$3,000, almost \$3,000. The tools combined with the ability to get inside of the traffic sources that you have, which otherwise. Which you wouldn't be able to do if you were just a regular person out there trying to apply for these programs. There's no way you'll get in these programs. I mean, and the ability to get into that program, basically, I felt like it lets you run with the big dogs without having to be a big dog.

SPEAKER 1

Basically, this is the best results I've ever gotten. When I saw Adam's stuff, it just felt different. Felt like there was something different about it, and it made sense.

SPEAKER 3

It was checking all the boxes for me.

SPEAKER 1

You see, when you use the invisible affiliate system, everything becomes easier. You make money without having a website. You make money without having a product. You make money without using Google, Facebook, or any other website for that matter. Now, you may be asking yourself, how do I get access to this invisible traffic network? How do I get my hands on this system so I can put it to use in my own business and make the kind of money I've always wanted? Well, I hate to tell you this, but you cannot simply buy your way in. I'm not here to share this information with anyone and everyone who wants it. I know this sounds like hype or whatever, but I mean it. I don't want this message to get out to everyone, everywhere. I continue to make millions of dollars as an affiliate with this exact same system, and I'm not going to share it with just anyone. The people who know about this and put it to work are having tremendous results. They are living proof that it works. And because I want to keep this method closely guarded, I've had to think long and hard about who I let in and who I don't. In fact, I have a test you must pass. If you want to work with me, you need to say yes to these seven rules. Rule number one, you must be willing to put in the time and effort to learn and implement the system. Rule number two, you must have a positive attitude and be open to new ideas and strategies. Rule number three, you must be willing to take action and not just sit

on the sidelines. Rule number four, you must have a strong desire to succeed and make money. Rule number five, you must be willing to invest in yourself and your business. Rule number six, you must be honest and ethical in your business practices. And rule number seven, you must be willing to Help others and give back to the community. If you agree to those seven rules, keep watching and I'll explain how you can get immediate access to the invisible affiliate system so you can start making more money right away. I'll show you exactly how. I make as much as \$250,000 every single month. And I'll give you a clear path you can use to get it up and running and see revenue in 14 days or less. I've even had students make money in as little as five hours. But I want to set more realistic expectations. Now, my personal clients Gladly pay me \$30,000 for my exclusive private coaching because they know they are paying for my experience, my expertise and my proven system. That's what Seth did. He now pockets \$3,000 per day. But I totally get that coughing up \$30,000 is not in most people's budgets. So I want to give you something to help you start raking in the cash as fast as possible with your own invisible affiliate system. Look, I'm not going to charge you thousands of dollars for yet another affiliate marketing course. Instead of giving you 1000 hours of useless babble, I'm going to give you my simple seven step plan to get you making money right away. I call this one of a kind, no fluff program. The seven Pillars Invisible Affiliate System. It's important to note this is not a course. This is not a training. This is what you always wished you had in high school before the big test. I'm just going to give you the answers. But unlike high school, this isn't cheating. It's smart. Use these seven pillars to start making money now. Then later you can pay me for advanced stuff if you want. But for now, instead of wasting your time teaching you theory, I'm going to go ahead and just give you everything you need to get started.

SPEAKER 4

Started.

SPEAKER 1

Let me quickly run through each pillar so you know what you're going to get. Pillar number one, your business model. I'll quickly recap the business model for you so you understand its power completely. I'll share with you my one of a kind invisible affiliate system that allows you to exploit traffic loopholes to make massive returns on your ad spend. Pillar number two, your proven market and product. I'll reveal the number one market you should be in and even give you the exact products you should be. You can start selling. Forget doing exhaustive market research and product analysis. Let me give you what I know works.

Remember, I've spent millions on ads and I know from the real world what is currently selling. Like hotcakes and what isn't. There's no need to guess. I'll just tell you straight up and give you my best performers. Pillar number three, your target demographic. We're talking about the most lucrative demographic on earth that has all the money in the world to spend on the products I tell you to promote. And you do not need to reinvent the wheel here. I'll show you who to target so you can just copy and paste my instructions and you'll be on your way. Armed with this hard won information, you'll be miles ahead of the competition who has to spend hundreds of thousands to figure this out on their own. Pillar number four, My invisible traffic source. This alone is worth tens of thousands of dollars. While everyone else is fighting Facebook or grappling with Google, you'll be living the affiliate lifestyle on easy mode. Once you discover this invisible traffic source for yourself. Getting red hot high Converting cheap traffic to your affiliate products is as easy as cheating on your diet on a Friday night. You won't have to worry about strict compliance rules or ad account bans because this traffic source is completely under the radar. You'll tap into a fresh audience that is hungry for the products you're promoting and you'll do it without breaking the bank. If you're tired of struggling to make affiliate sales with the social media mafia, you need this. Pillar number five, My step by step execution strategy. Sure, it's great that I'm giving you the business model, the niche to be in, the products to sell, the demographic to sell to, but that's still not enough. You need a proven, executable strategy you can follow. And so that's what the fifth pillar is all about. I'll show you step by step how to take your product in your marketing campaign and get it turned on and putting money into your pocket. It's a very simple process, but if you miss one of the crucial steps, I can promise you your campaign will die faster than a snowball in the Sahara desert. Pillar number six, Your secret weapon. This one is so proprietary that I'm going to be a bit vague. I've spent over \$1 million to create a Switch suite of software tools that automate about 95% of the work required to run my invisible affiliate system. Plus, I recruited and trained up an army of virtual assistants to handle the other 5%. This pillar will open your eyes to how passive this system is and you'll instantly understand how I can spend most of my time traveling with my wife and kids instead of working. This pillar is worth more than its weight in gold because it gives you more than just money. It gives you the time, freedom to enjoy it. And that brings us to the final pillar. Pillar number seven, your million dollar mindset. Look, all the strategies, tactics and tools we're talking about are super important, don't get me wrong. But you know what else is crucial? What's going on upstairs in your head. I won't sugarcoat it. There will be days when things don't quite click. But those are the moments when you need to stick to your guns, keep your eyes on the prize and push forward. That's where pillar number seven comes in. It's not about the nuts and bolts of the business. Instead, it's about getting your head in the game. We'll dive into the mindset hacks that keep you revved up and raring to go, even on days when you don't

feel great. Because here's the thing. With the right mindset, you can achieve anything. You can overcome any obstacle. Heck, you can even make a million dollars as an affiliate marketer. I've done it and so have some of my students. It's all about believing in yourself and staying focused even when the chips are down. SPEAKER 3

Adam is what he seems like he is in his videos. His team is legit, the system is legit, the traffic sources are a big deal and they're a really important part.

SPEAKER 4

Of all of this.

SPEAKER 3

And honestly, you know, I couldn't be more blessed or grateful to, to have A, come across it and B, made the decision to, to go, you know, invest in myself. You know, if you're on the fence, you know, do it. Hey, what's up, Adam? I just wanted to record this quick video and show you how some of my campaigns have been going. Today's the 20th, you can see that this goes back to about the 6th of April here and you know, first few days of the month we're doing a quite a bit of testing, just trying to find some stuff that works. On the 13th, we really found something that works, ramped it up and have been running that, that winning marketing for, you know, for about a week now, seeing the last seven days and last week made just over \$22,000 in gross sales. And if we quickly just come and take a look at my paychecks, you can see my sum of my 2022 paychecks is \$114,000. So I really can't thank you enough for, you know, for what you teach in the program. And it wasn't until I found your program went through your coaching that, that I really, you know, the light bulb kind of went off for me and I really started to figure out what, what I needed to do. So this has been the payoff, it's been fantastic, it's changed my life and you know, I can't thank you enough.

SPEAKER 4

So that's why I would recommend this to future students. No matter what age. If you're retired post college in the middle of your job, it's something you can start on the side and turn into your income. And so there's no reason to not take that

chance. Follow the steps. Start a business that's producing you money on the side. I really see it as a no brainer.

SPEAKER 1

And it all starts right here, right now, today. The way I see it, you have two choices. You can click the X on this page and walk away, but what are you walking back to? Your same life, your same job, the same worries, struggles and bills that brought you here in the first place. Your problem isn't going to fix itself. Your life will be what it is now or worse, unless you decide to change. And that's the other choice you have. Click the button below, place your order now and get the seven Pillars program. Remember, it's not just another course or training. It's a brain dump of my copy paste business model that you can use right away to start profiting. I'm giving you the niche to be in the audience to target the products to sell, and most importantly, where to get cheap, high converting traffic. This is the secret sauce people pay me \$30,000 for. But it's all yours for much, much less. Think about it like this. One of the products I'll give you to promote pays you \$100 per sale. If you take what I show you and make just one sale, you've made back more than your entire investment. What if you use it to make one sale a day, that's \$3,000 per month, a massive return. Five sales a day, you're at \$15,000 per month. With 10 sales a day, you're at 30,000 dollars per month. These aren't hypothetical. I have students doing numbers like this every month. And you're next. You literally have nothing to lose. Your order is protected by my 30 day money back guarantee. So this either works for you or you get your money back.
