Full Driver's Licence

Profile

I am a focused and passionate Make-up Junior. I have 3 years experience working in film and tv and many more working on smaller productions and music videos, acquiring valuable insight into professional practice, set etiquette and networking. I am a recently qualified barber. I work in the commercial, fashion and beauty space too, doing makeup and hairstyling. I have the ability to balance multiple competing priorities, having worked full time while also managing my illustration business and up-skilling in adobe creative cloud. I am extremely personable and thrive working in large teams.

Illustrator @evakynedesign at Self Employed

April 2020 — Present

In lockdown I started an Instagram led business where I created and sold personalised illustrations. My roles are drawing multiple illustrations a day on procreate, answering all emails and messages, sourcing and ordering frames, communicating with printers, packaging and posting orders, and marketing the business on social media. Today I have sold over 400 personalised illustrations
