

Ruoyu Chen: About Me

Hello, my name is Ruoyu Chen, and I will be in 10th grade in the fall. I am in the GT program and have been a Nation Junior Honors Society member for three years. I excel in math and science and maintained an A-plus in all my classes throughout my academic career. I have experience tutoring at Share and Grow from last summer, where I taught Python for Beginners and Intro to Geometry, and I am excited to teach students again this summer.
