

About the California VOCA Advocacy Alliance

The California VOCA Advocacy Alliance consists of statewide organizations dedicated to supporting survivors of crime, advocates, and their communities. Our large coalition works to advance the rights of survivors of trafficking, child abuse, domestic violence, sexual assault, and others. With a common goal to fearlessly advocate for our communities, we center equitable access to victim services in our decisions.

Below is a list of organizations that lead the California VOCA Advocacy Alliance, representing 400 organizations across California.
