Subj: Mutilations

Linda Moulton Howe was the guest on E.T. MONITOR on Saturday, March 14th. She said the body of the man found on the Bald Mountain near Scranton, Penn., was allegedly drug related and not related to the men in the hunting jackets with guns seen there earlier. They were allegedly checking the area around the TV tower where UFOs had been seen to land earlier.
Linda also told about the latest wave of Cattle Mutilations which began about the middle of January from Oklahoma to Arkansas. The latest was reported in Bella Vista, Ark. the week of March 1 - 7. She did not state the exact date.
She said it was a traditional mutilation, ear, tongue, sex organs, etc.. The "flap" includes mutilations in Oklahoma, Caldwell, Kansas, Arkansas, and Misouri. Anyone having additional information, please leave it here in this echo.

Robert Barry reports that there are new UFO sightings in New Mexico and Texas within the last week. Gulf Breeze, Fl. is still having sightings on a regular basis. He suggests anyone having vacation time take their camera and spend a few days in the area. He is sure you will be rewarded with a sighting if you are patient. He said that the sightings around Clark Summit, near Scranton, Penn., had apparently ceased for the time being.

Linda Howe also talked about the crop circles and the video tape which she has for sell, "CROP CIRCLE COMMUNIQUE". BTW, I happen to have a copy of this

film in my video tape library, if anyone is interested. She also talked about the crop circle phenomena and said that the same time that Doug and Dave were "hoaxing" their circles in England, Amature Astronomers in Canada witnessed a series of 6 different wheat patterns and saw unknown silent lights over the area where the patterns formed. She went into a description of how the molecular structure of the corn and wheat have been changed as a result of these patterns. For more information on this subject, I suggest you contact Linda M. Howe at: Linda Howe Productions,
P.O. Box 538, Huntingdon, Pennsylvania 19006-0538. The cost of her video tape mentioned above is $35 and that includes S/H. Pennsylvania residents add 6% tax.

Robert Barry mentioned that in Dec. 1988, a Mr. Wilson Solsa witnessed two U.S. Jet Fighters being captured by a Delta shaped UFO over 1,000 ft in length. He also reported that there were about 100 other witnesses to that abduction. He touched briefly on reported abductions as well as sightings of UFO's going into and coming out of the ocean near the island.

Anyone having any information dealing with any of the above topics is encouraged to leave a message in this echo.

REgards, Mike
