

“When the Poems Meet the Numbers!”

Anastasia Instructions: We are creating a collaborative book of numbers from 1 to 20. Each pair selects one number between 1 and 20 to work with. In each pair, one school writes a short poem about the chosen number, and the other draws a picture that represents the number and matches the poem. Note that each poem does not depend on any other poem — each poem is independent.

NUMBERS	POEM	DRAWING
Number 1	<p>Margarida Almeida, EBI de Arifres, Azores-Portugal</p> <p>One is the beginning of everything, A ray of sunshine rising. A snail follows its own path, slowly, but never getting lost.</p> <p>(Made with the help of artificial intelligence and children's keywords.)</p>	Olympia Reppa_1st Kindergarten School of Megalopolis, Greece
