

# Helping Your Child Succeed and Enjoy Math

## Ideas to Help Your Child Succeed and Enjoy Math

### Be Positive

Help your child to have a "can do" attitude by praising your child's efforts as well as accomplishments.

### Link Math to Everyday Life

People face situations every day that involve math, help your child realize the role math plays daily.

### Make Math Fun

Play board/card games, solve puzzles, workout brain teasers together

## Ideas to Help Your Child Succeed and Enjoy Math

### Set High Expectations

Your attitude and expectations are a major influence on your child's success. Believe that all people can succeed in learning math.

### Support Homework, Don't Do it!

Think of yourself as a guide, not the teacher. Ask questions and listen to your child. Often having your child explain their thinking out loud will help them figure it out.
