

Clearance Level: 4  
Name: Jimmy Swan  
Personnel ID: [33842]  
Content: Personnel Dossier

**CLASSIFIED**

## Details

Name: Jimmy Swan  
Serial number: 03-56 ZME  
Security Clearance:  
Level 4  
Site(s) of Operation:  
Site 65  
Previous Site(s) of  
Operation: Site-58,  
Site-73  
Status: Active  
Current position(s):  
Director of Research  
Loyalty: Broda Kagen

Physical Description:  
Sex: Male  
Height: 177 cm (5'10")  
Weight: 67 kg (147 lbs)  
Age: 36  
Nationality: British  
Ethnicity: British  
Hair Color: Dark Brown  
Eye Color: Brown  
Build: Slim

Clearance Level: 4  
Name: Jimmy Swan  
Personnel ID: [33842]

## Pre-Foundation Life

Jimmy Swan was born in Salisbury, England. During his childhood he grew up in a small household with his older sister and his parents. During his younger years he was always curious about things, he always wanted to know how everything worked and how everything was constructed. In high school Jimmy Swan had a keen interest in physics. Jimmy achieved a degree in physics and went on to study astronomy and energy for a great period of his life. At 26 of age Swan encountered an extraterrestrial deity that claimed it came from the stars with an offer for Swan he couldn't reject, the offer included a miniature black hole and a concentrated sphere of pure energy, both could be used to advance his research on black holes and a potentially endless energy source, or at least an energy source lasting 2 life times. All that power and knowledge in exchange for a part of his soul. At the time Jimmy didn't really understand what that meant and accepted the deal, he could now summon a stable miniature black hole and a sphere consisting of literal pure energy at will. He kept this power to himself for quite some time, until one day he was experimenting with the sphere to see if it could damage a diamond, this went terribly wrong and it caused a minor explosion within his home, the police couldn't find the source of the explosion while Swan was hospitalized. While Swan was hospitalized SCP Foundation MTF Lambda-5 and MTF Phi-Eolh operatives came to investigate the area, they found high hume readings in Swans personal bedroom, after Jimmy Swan recovered and was no longer hospitalized, MTF Omega-20 kidnapped Jimmy Swan, took him to Canada where he was taken to an investigation room in Site 65 and questioned him regarding the incident, Swan explained he had little to no control over his power and was still researching his newfound ability, Foundation agents offered him a position as Jr. Researcher assigned to reality bending anomalies on site. Swan accepted the offer.

## Foundation Career

After joining the SCP Foundation as a Junior Researcher, Swan was already frequently testing to his full limits for a period of 2 months. When Swan was promoted to the rank of researcher he began testing on some more complex SCPs and began studying his own anomalous abilities to potentially take full control of them. After a while of doing many tests and experiments, Jimmy Swan was promoted to the rank of Sr. Researcher at this time he worked under Director Mirai Archaeus and James Overscott. Archaeus reported several attempts made by Jimmy Swan to trap him in a small room, when asked Dr. Swan claimed Archaeus was an anomaly and shouldn't be walking alongside us, rather in containment like the rest of them. After a long time of dedicated research and development for the SCP Foundation his rank was elevated to Executive Researcher, during this time he was caught performing rather unethical tests and has been arrested by the Ethics Committee numerous times. As an Executive Researcher, Swan was seen leaving Foundation base to go to the UNGOC FOB, he came back with seemingly no change, a few weeks after this incident DEA managed to sneak into the UNGOC FOB and retrieve a medical file on Jimmy Swan, in this file it was proven that Jimmy Swan is a Type Green and a "Type Grey", after further research this means that Swan is practically an undead. After a while, Swan was picked to be elevated to the rank of Director of Research by the O5 council, no reports have been submitted since his elevation.

## Additional Notes:

While Swan is technically considered anomalous, he is not contained due to his knowledge and ambition for research, he is seen as a special asset rather than an SCP.

The red sphere Jimmy can manifest has shown a stable hume level increase which makes any Reality bender or thaumatologist in its presence stronger, which is a double-edged sword depending on the situation. Jimmy Swan requires special permission to manifest the sphere in the presence of the Type Green SCPs on site, Specific abilities of the sphere are still somewhat unknown as it is difficult to research it due to its destructive and chaotic properties.

Sightings of "Cultists" appearing out of thin air around Swan have been reported, if you see anyone wearing brown robes talking to Swan report it to local MTF E-11 operatives.

Swan has been spotted going to the UNGOC FOB several times, if he attempts to leave the compound please alert the ethics committee immediately.
