

Remediation Requirements

For certain assessments and projects, remediation will be allowed. This will give you an opportunity to demonstrate knowledge that you were not able to show on the assessment.

In order to receive half credit for the points that you missed, you must submit the following after the assessment was returned.

Remediation should be completed during a study hall, before or after school, or during provided class time.

For each question on which you lost credit, you must provide each of the following to receive credit.

1. the answer that you provided
2. an explanation of why your answer was incorrect, including your thought process
3. the full correct answer to the question and reasoning for why this is a better answer than the one you provided (explain the answer – do not just state the answer)
