RULES

1. Not first come first served. I need to see videos on your channel or linked in your comment, preferably on your channel.
2. Video needs to be in 16:9 (1280x720, 1600x900, 1920x1080 etc) if it's in any other ratio it will NOT WORK
3. No watermarks, please. I'll add in your channel name. This includes Flipaclip, unless you can remove the watermark yourself idk anything about flipaclip
4. You can take up to 3 parts, as long as you're certain you'll finish them. In fact, please find a bunch of parts you're interested in so I can give you another part if your first choice is taken
5. OCs, fancharacters, fandoms etc are allowed BUTTTT I might ask you not to do certain fandoms? You probably won't need to worry about it dw I'm not pedantic abt it
6. Cut your own audio, please. I can help you if you need it but also PLEASE don't download the audio from the map call directly, my editing software has been putting skips in the audio
7. The vibe of this project is fun, wacky, etc. with bright colors, no particular palette. I wouldn't go overboard with gore, but I'm not opposed to gore and more sinister themes. NO NSFW PLEASE im baby
8. Please don't ghost me! For real, if you just up and vanish for a week I gotta get someone else to do the part

OTHER INFO

1. Said this earlier, but don't take the audio directly from the map call, get it from the official audio! Lightworks sucks at making audio not wonky!
2. Show me you read through the info page by using the word "vibe" in your comment
3. Join the discord to keep in touch w me: <https://discord.gg/jHngbFx>

DEADLINES

Parts due **a week after you get them**. I can extend that (just talk to me) but the **HARD** deadline is **October 28th**.
