1:00 - 2:00 p.m. Zoom - Making Google Slides Interactive Learning Spaces with Pear Deck + Free Learning Templates for Slides and Drawings - Zoom Link <https://zoom.us/j/161824229>

Google Slides can be so much more than slide presentations! In this session, we'll focus on two specific ways to engage students in remote learning with Slides: 1) there are hundreds of free templates using Google Slides (and Drawings) that can provide students an instant multimedia learning canvas; and 2) Pear Deck is a tool that can make any slides (Google Slides or PowerPoint) interactive learning spaces. This can be done live during real-time instruction, or it can be set to a student-paced mode. When done live, it can control which slide students are focused on. Join this session to learn more!
