Imagine creating your highest revenue year yet in 2023!

Let us help you make it a reality.

If you are here, it is likely because you are underearning.

You are highly skilled, with a business you love (or that you are dreaming of creating) and looking **to reach that next level of earning right now.**

Perhaps **you have a vision** that feels constrained by finances, or are just feeling stuck and unsure how to catapult yourself to that next level.

The truth is that you have everything you need to be financially successful,
you just need a clear system.

And to take the **time and space** to look at the stories you are telling yourself about money, and the support and accountability to unwind them.

Cosmic Cashflow is that opportunity.

Making money is a practice

We are all born with a karmic potential to earn, save, donate and have success - and blocks we must overcome to get there.

This course is a remedy designed to help you skillfully navigate your money karma so that you can reclaim your power and earn wildly well.

The bottom line is:

Your work matters, and you are here to make a difference.

Smash the patriarchy with your business!

We believe that there is a huge paradigm shift underway in how business is done, which looks like:

We don't have to compromise

What students of Paula's programs are saying:

"I made quantum jumps" ~Anne L.

"Taking Paula's class is like a right of passage if you want to go from feeling like an impoverished creative person [...] to someone who can take the reins of their creativity in their own hands and find a way to earn a living." ~Shraddha B.

"[The program] wasn't just a 'building'. It was a dismantling of some fundamental pieces that were actually in the way for what I needed to lift up into, to begin to move forward." ~Allison D.

“Getting my mind wrapped around 10k a month now feels like a completely doable thing, whereas in the beginning it felt immense.” ~
Your Magnetic Blueprint student

Who is helping you create your wealth practice?

Paula Crossfield is Vedic astrologer and Business Coach dedicated to helping a million spirit-led entrepreneurs make more money and impact so they can bankroll the change they want to see in the world.

She believes that when you are aligned with your purpose and the planets – and using proven strategy – you can earn massively and give back in profound ways to inspire a positive change in our culture. In fact, she is able to give five figures to indigenous, social justice and environmental causes every year from her overflow.

Her insights on astrology and business strategy have helped her build two online businesses to multiple six figures in two years. When she's not helping her clients with proven strategies paired with astrology's magical timing and insight, you can find her working in the garden on her 160 acre homestead where she and her husband are regenerating the forest and land for future generations.

FAQ:

Do I need to have a business to join this program?

Not necessarily, but know that some of the content inside speaks specifically to business owners. That being said, we can all benefit from knowing our numbers and reclaiming our power around money.

What if I can't make the live Q&A calls?

Be at ease knowing that you can send in questions in advance, and also that there will be recordings made available.

How does this differ from Your Magnetic Blueprint or Paula's other programs?

This material has been distilled from the first steps Paula does with those in her previous Your Magnetic Blueprint program. This is the first time she is offering this information outside the higher-priced container. Figuring out your numbers and working on your money mindset are the two foundations for creating a successful business, and so she wanted to offer this in this format so that you can start to put these tools into practice no matter what stage you are at in business. For those who have taken Your Magnetic Blueprint, there is new material here but the concepts are the same.

What is your refund policy?

Because you gain immediate access to the recordings and content, there are no refunds. We are sure that if you honestly engage in this content it will help you!

How quickly can I expect to generate income?

We've seen people immediately begin seeing money come in, or it take a bit more time, depending on your personal astrology, what kinds of portals you have open in your business to earn, and where you are at in your mindset work. Paula used these tools for a year before she had huge leaps in income (but that said there were exciting shifts and openings leading up to that), but it required her to surrender fully to the process. When you do that, and get really curious about what you'll uncover, you will likely expedite your results. That being said this work is highly personalized, and there are no guarantees that you will see results. What we are teaching you is a practice and about due diligence, which is pleasing to Saturn (the planet most likely obstructing your earning!)

Is there astrology-focused content in this course?

This course is taught through the lens of the vedic sciences, including astrology. There is a teaching, for example, on the planet Saturn and how he impacts you, and on karma, so it can be helpful to already have some understanding of this framework.

Is Paula available to do a reading of my birth chart?

Unfortunately Paula no longer does individual readings, but does sometimes open opportunities to people inside this program for Money Karma Analysis. Otherwise she offers other programs where you can get more personalized support.

If you are still here, I know you are thinking about joining us!
