October 21

Man it is crazy how things are starting to come together for me. I am finally trading with a little confidence (not much) lol.

I will tell you that it has been a wild journey. I almost quit trying to trade options. I was down to 167 dollars in this account and promised my wife I would not put any more money in the account.

Well I closed today above 10K! I still can't believe I made it to here from my low point.

You training sessions and advice has been life changing for me. Thank you again so much for all that you do for this group.

I can't thank you enough for what you have taught me in my option trading journey. It has been a rough year of learning with so many up and downs. The last 2 weeks have been the best so far in my options career. I have made over 5k in these 2 weeks.

I know I still have so much to learn but this community has given me the knowledge and support towards financial freedom. I just wanted to thank you.
